**SUPPLEMENTARY INFORMATION:** On May 11, 2010, the DOE released two RFIs in the **Federal Register** regarding the implementation of the National Broadband Policy. (75 FR 26203, 75 FR 26206). The first RFI requested information from electric utilities, consumer groups, and other interested parties regarding the protection of and access to consumer energy usage data as federal, state, and private entities seek to develop Smart Grid technologies. The second RFI requested information on the evolving needs of electric utilities as Smart Grid technologies are more broadly deployed. These RFIs, intended to solicit opinions from a diversity of stakeholders, provided for the submission of comments by July 12, 2010, and the submission of reply comments by July 26, 2010. To date, DOE has received more than 80 comments from electric utilities, private corporations, and consumer groups.

Given the high volume of comment submission and the apparent public interest, the DOE has determined that an extension of the public reply comment period is appropriate and is hereby extending the reply comment period. DOE will consider any comments received by August 9, 2010 and deems any comments received between July 12, 2010 and July 22, 2010 to be timely submitted.

Issued in Washington, DC, on July 16, 2010.
