

instrumentation calibrated in terms of an rms-equivalent voltage. The measurement results shall be properly adjusted for any instrument limitations, such as detector response times, limited resolution bandwidth capability when compared to the emission bandwidth, sensitivity, *etc.*, so as to obtain a true peak measurement for the emission in question over the full bandwidth of the channel.

#### Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Adjustment to the Loligo Trimester 2 and 3 Quota; Correction

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; correction.

**SUMMARY:** NMFS is correcting a temporary rule to adjust the 2010 fishing year (FY) Trimester 2 and 3 *Loligo* squid quotas. The rule contained a numerical error in the metric value of the revised Trimester 3 quota. The correct value for the revised Trimester 3 quota of 23,743,619 lb is 10,770 mt.

**DATES:** Effective June 30, 2010, through December 31, 2010.

#### FOR FURTHER INFORMATION CONTACT:

Lindsey Feldman, Fishery Management Specialist, (978) 675-2179, fax (978) 281-9135.

**SUPPLEMENTARY INFORMATION:** On June 30, 2010 (75 FR 37739), a temporary rule was published adjusting the FY 2010 Trimester 2 and 3 *Loligo* squid quotas. The temporary rule correctly revised the Trimester 3 quota from the

initial quota of 16,461,920 lb (7,467 mt) to a new quota of 23,743,619 lb, but erroneously specified the metric equivalent as 13,770 mt. The corrected metric equivalent is 10,770 mt.

#### Correction

In rule FR Doc. 2010-15933 published on June 30, 2010, (75 FR 37739) make the following correction. On page 37739, in the third column, correct “(13,770 mt)” to read “(10,770 mt)”.

#### Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Western Yakutat District of the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific ocean perch by catcher/processors participating in the limited access or opt-out fisheries that are subject to sideboard limits established under the Central Gulf of Alaska (GOA) Rockfish Program in the Western Yakutat district of the GOA. This action is necessary to prevent exceeding the 2010 sideboard limit of Pacific ocean perch established for catcher/processors participating in the limited access or opt-out fisheries in the Western Yakutat district of the GOA.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), July 20, 2010, through 1200 hrs, A.l.t., July 31, 2010.

#### FOR FURTHER INFORMATION CONTACT:

Steve Whitney, 907-586-7269.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council

under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2010 Pacific ocean perch sideboard limit established for catcher/processors participating in the limited access or opt-out fisheries that are subject to sideboard limits in the Central GOA Rockfish Program in the Western Yakutat district is 1,099 metric tons (mt). The sideboard limit is established by the final 2010 and 2011 harvest specifications for groundfish of the GOA (75 FR 11749, March 12, 2010) and as posted as the 2010 Rockfish Program Catcher/Processor Sideboards at <http://alaskafisheries.noaa.gov/sustainablefisheries/goarat/default.htm>.

In accordance with § 679.82(d)(7)(i)(A), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2010 Pacific ocean perch sideboard limit established for catcher processors participating in the limited access or opt-out fisheries in the Western Yakutat district will soon be reached. Therefore, the Regional Administrator is establishing a directed

fishing allowance of 999 mt, and is setting aside the remaining 100 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.82(d)(7)(ii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for the Pacific ocean perch sideboard limit established for catcher/processors participating in the limited access or opt-out fisheries in the Western Yakutat district of the Gulf of Alaska.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

#### **Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is

impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Pacific ocean perch sideboard limit for catcher/processors participating in the limited access or opt-out fisheries in the Western Yakutat district. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of July 19, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.82 and is exempt from review under Executive Order 12866.
