**SUPPLEMENTARY INFORMATION:** TTB received a petition from Sara Schorske of Compliance Service of American, prepared and filed on her own behalf and that of local wine industry members to establish the 4,600-acre Pine Mountain-Mayacmas viticultural area in northern California. About two-thirds of the proposed viticultural area lies in the extreme southern portion of Mendocino County, with the remaining one-third located in the extreme northern portion of Sonoma County.

The proposed Pine Mountain-Mayacmas viticultural area is totally within the multicounty North Coast viticultural area (27 CFR 9.30) and it overlaps the northernmost portions of the established Alexander Valley viticultural area (27 CFR 9.53) and the Northern Sonoma viticultural area (27 CFR 9.70).

In Notice No. 105 published in the *Federal Register* (75 FR 29682) on Thursday, May 27, 2010, we described the petitioners’ rationale for the proposed establishment of the Pine Mountain-Mayacmas viticultural area and requested comments on the proposal on or before July 26, 2010.

On July 16, 2010, we received a letter request from attorney Richard Mendelson on behalf of the Napa Valley Vintners (NVV), a wine industry trade association. The request explained that the periodic scheduling of the NVV’s committee and board of directors meetings, the group would be unable to meet the original July 26, 2010, comment deadline for Notice No. 105. The letter therefore requested a 45-day extension to the comment period for Notice No. 105 to allow the NVV to complete and thoroughly vet its comments on the proposed viticultural area.

In response to this request we extend the comment period for Notice No. 105 an additional 45 days. Therefore, the comments on Notice No. 105 are now due on or before September 9, 2010.

**ACTION:** Advance notice of proposed rulemaking.

**SUMMARY:** The Department of Justice (Department) is considering revising the regulation implementing title II of the Americans with Disabilities Act (ADA) to address in what manner public entities that operate 9-1-1 call-taking centers (also known as Public Safety Answering Points (PSAPs)) should be required to make changes in telecommunication technology to reflect developments that have occurred since the publication of the Department’s 1991 regulation. Under its existing title II regulation, the Department requires that PSAPs provide direct, equal access to telephone emergency centers for individuals with disabilities who use analog text telephones (TTYS). Many individuals with disabilities now use the Internet and wireless text devices as their primary modes of telecommunications. At the same time, PSAPs are considering and planning to shift from analog telecommunications technology to new Internet-Protocol (IP)-enabled Next Generation 9-1-1 services (NG 9-1-1) that will provide voice and data (such as text, pictures, and video) capabilities. This ANPRM seeks information on possible revisions to the Department’s regulation to ensure
