

If an accrediting organization is recognized by the Secretary as having standards for accreditation that meet or exceed Medicare requirements, any provider entity accredited by the national accrediting body's approved program would be deemed to meet the Medicare conditions. A national accrediting organization applying for deeming authority under part 488, subpart A of our rules must provide us with reasonable assurance that the accrediting organization requires the accredited provider entities to meet requirements that are at least as stringent as the Medicare conditions. Our regulations concerning the re-approval of accrediting organizations are set forth at § 488.4 and § 488.8(d)(3). The regulations at § 488.8(d)(3) require accrediting organizations to reapply for continued deeming authority every 6 years or sooner, as determined by CMS.

II. Approval of Deeming Organizations

Section 1865(a)(2) of the Act and our regulations at § 488.8(a) require that our findings concerning review and re-approval of a national accrediting organization's requirements consider, among other factors, the applying accrediting organization's requirements for accreditation; survey procedures; resources for conducting required surveys; capacity to furnish information for use in enforcement activities; monitoring procedures for provider entities found not in compliance with the conditions or requirements; and, ability to provide us with the necessary data for validation.

Section 1865(a)(3)(A) of the Act further requires that we publish, within 60 days of receipt of an organization's complete application, a notice identifying the national accrediting body making the request, describing the nature of the request, and providing at least a 30-day public comment period. We have 210 days from the receipt of a complete application to publish notice of approval or denial of the application.

The purpose of this proposed notice is to inform the public of DNVHC's request for CAH deeming authority. This notice also solicits public comment on whether DNVHC's requirements meet or exceed the Medicare CAH conditions of participation (CoPs).

III. Evaluation of Deeming Authority Request

DNVHC submitted all the necessary materials to enable us to make a determination concerning its request for approval as an accreditation organization for CAHs. This application was determined to be complete on June 3, 2010. Under section 1865(a)(2) of the

Act and our regulations at § 488.8 (Federal review of accrediting organizations), our review and evaluation of DNVHC will be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of DNVHC's standards for a CAH as compared with CMS' CAH CoPs.
- DNVHC's survey process to determine the following:
 - + The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.
 - + The comparability of DNVHC's processes to those of State agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.

+ DNVHC's processes and procedures for monitoring CAHs found out of compliance with DNVHC's program requirements. These monitoring procedures are used only when DNVHC identifies noncompliance. If noncompliance is identified through validation reviews, the State survey agency monitors corrections as specified at § 488.7(d).

+ DNVHC's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.

+ DNVHC's capacity to provide us with electronic data and reports necessary for effective validation and assessment of the organization's survey process.

+ The adequacy of DNVHC's staff and other resources, and its financial viability.

+ DNVHC's capacity to adequately fund required surveys.

+ DNVHC's policies with respect to whether surveys are announced or unannounced, to assure that surveys are unannounced.

+ NVHC's agreement to provide us with a copy of the most current accreditation survey together with any other information related to the survey as we may require (including corrective action plans).
