#### IV. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks until January 15, 2011, one year after the date on which the fee was due.

Existing stocks are those stocks of registered pesticide products which are

currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation order. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a special review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

#### V. Docket

#### Weekly Receipt of Environmental Impact Statements

Filed 07/23/2010 through 07/23/2010. Pursuant to 40 CFR 1506.9.

*Notice:* In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which

includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.

**Petition For Rulemaking to Establish Procedures For The Creation and Amendment of Endangered Species Protection Bulletins; Notice of Availability**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA is announcing the availability of a January 19, 2010 petition from Dow AgroSciences LLC ("DAS"), Makhteshim Agan of North America, Inc. ("MANA"), and Cheminova, Inc. USA ("Cheminova") requesting EPA promulgate a rule for creating and amending Endangered Species Protection Bulletins ("County Bulletins") intended to provide additional label directions as part of the Agency's Endangered Species Protection

Program (ESPP). DAS, MANA, and Cheminova state that appropriate, clear, and equitable procedures for creating and amending County Bulletins must be established. They further claim that the current process used to develop and implement County Bulletins is ad hoc, and that EPA has no established procedures for input by the agricultural or forestry communities, or to assure the pesticide registrant's ability to review, comment upon and/or challenge proposed language in County Bulletins that would be referenced on its label.

**DATES:** Comments must be received on or before September 27, 2010.
