2. Proposed Amendment to Addendum C of the NSCC’s Rules

After reviewing the SBP, NSCC has determined that it faces increased risks in two situations. Specifically, NSCC has identified increased risks when NSCC borrows municipal or corporate bonds and when NSCC borrows securities issued by the lending Member or any of its affiliates. First, if NSCC is unable to timely close out long positions in corporate or municipal bonds that were created by loans of such securities from a Member that becomes insolvent, then NSCC may possess high concentrations of corporate or municipal bonds that it cannot deliver to the insolvent Member. Consequently, NSCC bears an increased risk of loss because it would be forced to liquidate those corporate or municipal bond positions in thinly traded markets. Second, NSCC incurs credit exposure in instances where it borrows securities from a Member that is also the issuer of the securities or is an affiliate of the issuer. In the event that such a Member becomes insolvent, then NSCC incurs the additional risk that the securities issued by the Member or its affiliate and that are lent through the SBP will likely decline in value.

In both situations, NSCC believes there are certain risks posed by the SBP that outweigh the benefits to NSCC and its Members. Accordingly, NSCC proposes amending its Rules so that municipal and corporate bonds would be ineligible for lending through the SBP and so that Members would be unable to lend securities through the SBP that are issued by the Member or its affiliates. Members would be advised of the implementation date for these proposed changes through the issuance of an NSCC Important Notice. The language of the proposed changes to NSCC’s Rules and Procedures can be found in Exhibit 5 to proposed rule change SR–NSCC–2010–07 at http://www.dtcc.com/downloads/legal/rule_filings/2010/nscc/2010–07.pdf.

NSCC believes the proposed rule changes are consistent with the requirements of Section 17A of the Act and the rules and regulations thereunder because the proposed changes would facilitate prompt and accurate clearance and settlement of securities transactions by establishing appropriate safeguards and enhanced efficiency within the SBP process to mitigate risks that the SBP poses to NSCC.

B. Self-Regulatory Organization’s Statement on Burden on Competition

NSCC does not believe that the proposed rule change would impose any burden on competition.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed rule change have not been solicited or received. NSCC will notify the Commission of any written comments received by NSCC.

Within thirty-five days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASDAQ included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASDAQ has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ is proposing to assess a fee for each MPID approved by NASDAQ for use by a member firm on NASDAQ’s systems in excess of one. MPIDs are special numerical identifiers assigned to certain broker-dealers to identify the firms’ transaction and quoting activity. NASDAQ administers the assignment of MPIDs, which may be requested by broker-dealers for use on NASDAQ systems, reporting to FINRA, or a combination of the two. NASDAQ member firms are assigned a unique Primary MPID upon gaining NASDAQ membership. A member firm may, however, request additional MPIDs beyond its Primary MPID, called Supplemental MPIDs. Currently, NASDAQ does not assess a fee for the privilege of using approved Supplemental MPIDs on NASDAQ. In recent years, member firms have increasingly adopted business structures and strategies that require multiple Supplemental MPIDs. Member firms use 7000. Charges for Membership, Services, and Equipment

(a)–(b) No change.

(c) The first market participant identifier or maker participant identifier issued to a member, referred to as the "Primary MPID," is provided at no cost. Additional identifiers, referred to as "Supplemental MPIDs," may be approved for use on NASDAQ for a fee of $1,000 per month, per additional identifier. Supplemental MPIDs that are used exclusively for reporting information to facilities of the Financial Industry Regulatory Authority (e.g., FINRA/NASDAQ Trade Reporting Facility) are excluded from this fee.
