

Therefore, Action Alternative Two remains as the National Park Service Preferred Alternative.

The public release of the Abbreviated Final GMP/EIS will be followed by a 30-day no-action period, after which a Record of Decision will be prepared to document the selected alternative and set forth any stipulations for implementation of the GMP. The Abbreviated Final GMP/EIS and the Draft GMP/EIS constitute the complete and final documentation upon which the Record of Decision will be based.

DATES: The NPS will execute a Record of Decision no sooner than 30 days following publication by the Environmental Protection Agency of the Notice of Availability of the Abbreviated Final GMP/EIS in the **Federal Register**.

ADDRESSES: The Abbreviated Final GMP/EIS is available online at the NPS Planning, Environment and Public Comment (PEPC) Web site (<http://parkplanning.nps.gov/rova>). Hard-copies of the document are available for inspection at the Hyde Park Free Library, 2 Main Street, Hyde Park, NY.

FOR FURTHER INFORMATION CONTACT: Superintendent, Roosevelt-Vanderbilt National Historic Sites, 4097 Albany Post Road, Hyde Park, NY 12538, Phone: 845.229.9116, ext. 33, Sarah_Olson@nps.gov.

SUPPLEMENTARY INFORMATION: The Draft GMP/EIS addresses the three units of the national park system that compose Roosevelt-Vanderbilt National Historic Sites: Home of Franklin D. Roosevelt National Historic Site (NHS); Eleanor Roosevelt NHS; and Vanderbilt Mansion NHS. The three national historic sites are combined into a single administrative unit, but each was established by separate legislation. The Draft GMP/EIS evaluates alternatives to guide the management of the national historic sites over the next 20 years. The No-Action Alternative continues the current management direction. Action Alternative One emphasizes restoring historic appearance of the properties and encouraging visitors to explore more of the estate buildings and landscape. Action Alternative Two seeks to make the parks relevant to more audiences by encouraging greater civic participation in park activities, while significantly enhancing the historic character of park resources. Action Alternative Two is the agency Preferred Alternative. The Draft GMP/EIS was available for public and agency review from December 24, 2009 through February 28, 2010. Copies of the document were sent to individuals, agencies, and organizations, and were made available at park visitor centers,

local library, and on the NPS Planning, Environment, and Public Comment (PEPC) Web site (<http://parkplanning.nps.gov/rova>). Public open houses were held on January 28 and 29, 2010.

The BLM determined that the modified application would be processed as two separate maintenance tracts. The tracts are referred to as the North Porcupine Tract, case file number WYW173408, and the South Porcupine Tract, case file number WYW176095. As applied for, the coal in the tracts would potentially extend the life of the mine by as many as 10 years.

Containing 3,185.96 acres, more or less.

Consistent with Federal regulations under NEPA and the Mineral Leasing Act of 1920, as amended, the BLM must prepare an environmental analysis prior to holding competitive Federal coal lease sales. The Powder River Regional Coal Team recommended that the BLM process these four coal lease applications after it reviewed the tracts that were applied for by Ark Land Company and Jacobs Ranch Coal Company at a public meeting held on April 19, 2006, in Casper, Wyoming, and the tracts that were applied for by BTU Western Resources, Inc., at a public meeting held on January 18, 2007, in Casper, Wyoming.

Lands in the North Hilight Field, South Hilight Field, West Hilight Field, North Porcupine, and South Porcupine Tracts contain Federal surface estate administered by the U.S. Forest Service (USFS) and private surface estate which overlies the Federal coal. Lands in the West Jacobs Ranch Tract contain all private surface estate which overlies the Federal coal.

Cooperating agencies in the preparation of this EIS include: the Office of Surface Mining Reclamation and Enforcement (OSM), U.S. Department of Agriculture, Forest Service (USFS), Wyoming Department of Transportation, Wyoming Department of Environmental Quality (WDEQ) Land Quality and Air Quality Divisions, and the Converse County Board of Commissioners. Before the tracts can be leased, the USFS must consent to leasing the Federal coal that is located on USFS-administered lands.

On July 3, 2007, the BLM published a Notice of Intent to prepare an EIS for the Wright Area coal lease applications in the **Federal Register**. A notice announcing the availability of the Draft EIS was published in the **Federal Register** by the EPA on June 26, 2009. A 60-day comment period on the Draft EIS commenced with publication of the EPA's Notice of Availability and ended on August 24, 2009. The BLM published a Notice of Availability and Notice of Public Hearing in the **Federal Register** on July 8, 2009. The BLM's **Federal Register** notice announced the date and time of a public hearing, which was held on July 29, 2009, in Gillette, Wyoming. The purpose of the hearing was to solicit comments on the Draft EIS and on the fair market value and the

maximum economic recovery of the Federal coal. Comments received at this hearing and during the Draft EIS comment period will be available to the public for review in an appendix to the Final EIS. The BLM responses to substantive comments will also be available in the Final EIS.

The Black Thunder Mine, Jacobs Ranch Mine, and North Antelope Rochelle Mine are operating under approved mining permits from the WDEQ Land Quality and Air Quality Divisions.

If the tracts are leased to existing mines, the new leases must be incorporated into the existing mining and reclamation plans for those mines. Before the Federal coal in each tract can be mined, the Secretary of the Interior must approve the revised Mineral Leasing Act (MLA) mining plan for the mine in which each tract will be included. The OSM is the Federal agency that is responsible for recommending approval, approval with conditions, or disapproval of the revised MLA mining plan to the Office of the Secretary of the Interior.

The Final EIS analyzes and discloses to the public the direct, indirect, and cumulative environmental impacts associated with leasing six Federal coal tracts in the Wyoming portion of the Powder River Basin. A copy of the Final EIS has been sent to affected Federal, State, and local government agencies; persons and entities identified as potentially being affected by a decision to lease the Federal coal in each of the tracts; and persons who indicated to the BLM that they wished to receive a copy of the Final EIS.

The Final EIS analyzes leasing the six Wright Area coal tracts as the Proposed Action. Under the Proposed Action, competitive sales would be held and leases issued for Federal coal contained in each of the tracts as applied for by each of the applicants. As part of the coal leasing process, the BLM is evaluating adding additional Federal coal to the tracts to avoid bypassing coal or to prompt competitive interest in unleased Federal coal in the area. The alternate tract configurations for each of the LBAs that the BLM is evaluating are described and analyzed as separate alternatives in the Final EIS. Under these alternatives, competitive sales would be held and leases would be issued for Federal coal lands included in tracts modified by the BLM. The Final EIS also analyzes the alternative of rejecting the application(s) to lease Federal coal as the No Action Alternative. The Proposed Action and alternatives for each of the LBAs being considered in the Final EIS are in

conformance with the approved Resource Management Plan for Public Lands Administered by the Bureau of Land Management Buffalo Field Office (2001) and the USDA-Forest Service Land and Resource Management Plan for the Thunder Basin National Grassland (2002). A separate Record of Decision (ROD) will be prepared for each of the tracts after the close of the 30-day review period for the Final EIS. Comments received on the Final EIS will be considered during preparation of the ROD.

Requests to be included on the mailing list for this project and requests for copies of the Final EIS may be sent in writing, by facsimile, or electronically to the addresses previously stated at the beginning of this notice. The BLM asks that those submitting comments on the Final EIS make them as specific as possible with reference to page numbers and sections of the document. Comments that contain only opinions or preferences will not receive a formal response; however, they will be considered as part of the BLM decision-making process.

Please note that comments and information submitted including names, street addresses, and e-mail addresses of respondents will be available for public review and disclosure at the above address during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
