AGENCY: Western Area Power Administration, DOE.

AGENDA: The Commission will host a roundtable discussion regarding the various accessibility issues the EAC is exploring with its work with the revision to the 2005 Voluntary Voting System Guidelines (VVSG). The goal of the roundtable is to provide the EAC with relevant information and implementable suggestions that the Commission can use as it attempts to make these policy decisions.

The discussion will be focused upon the following topics: (1) New issues that were not addressed or anticipated by the 2005 VVSG; (2) Use of transferrable technologies and use of adaptive devices; (3) Issues with verification of vote and/or paper ballot by disabled voters; (4) Improvements to conformance and summative testing to accessible requirements by the EAC and manufacturer(s); (5) The possible benefits and drawbacks of component testing and certification; (6) Telephone voting systems and accessibility requirements; (7) The strengths and weaknesses of allowing submission of certification in two categories, systems without accessibility components and accessible voting systems.

Members of the public may observe but not participate in EAC meetings unless this notice provides otherwise. Members of the public may use small electronic audio recording devices to record the proceedings. The use of other recording equipment and cameras requires advance notice to and coordination with the Commission’s Communications Office.*

DEPARTMENT OF ENERGY

Western Area Power Administration

2015 Resource Pool—Sierra Nevada Customer Service Region

Background

CVP power facilities are operated by the U.S. Department of the Interior, Bureau of Reclamation (Reclamation), and include 11 powerplants with a maximum operating capability of about 2,044 megawatts (MW), and an estimated average annual generation of 3.3 million megawatthours (MWh). Western markets and transmits power available from the CVP.

The Washoe Project’s Stampede Powerplant also is operated by Reclamation and has a maximum operating capability of 3.65 MW with an estimated annual generation of 10,000 MWh. The Sierra Pacific Power Company owns and operates the only transmission system available for access to the Stampede Powerplant.

Western owns the 94 circuit-mile Malin-Round Mountain 500-kilovolt (kV) transmission line and the 84 circuit-mile Los Banos-Gates No. 3 500-kV transmission line (both integral parts of the Pacific Northwest-Pacific Southwest Intertie), 803 circuit miles of 230-kV transmission line, 7 circuit miles of 115-kV transmission line, and approximately 63 circuit miles of 69-kV and below transmission line. Western also has part ownership in the 342-mile California-Oregon Transmission Project. Many of Western’s existing customers have no direct access to Western’s transmission lines and receive service over transmission lines owned by other utilities.

The Marketing Plan describes how SNR will market its power resources beginning January 1, 2005, through December 31, 2024. Western proposes to allocate portions of the 2015 Resource Pool to applicants meeting the eligibility criteria listed in the Marketing Plan.

On the 2015 Resource Pool allocations have been finalized, Western will offer contracts to allottees for a percentage of the Base Resource. If requested, Western will work with the allottees to develop a customized product to meet their needs, as more fully described in the Marketing Plan.

ACTION: Notice of Proposed Power Allocations.

SUMMARY: The Western Area Power Administration (Western), a Federal power marketing administration of the Department of Energy (DOE), published its 2004 Power Marketing Plan (Marketing Plan) for the Sierra Nevada Customer Service Region (SNR) in the Federal Register on June 25, 1999. The Marketing Plan specifies the terms and conditions under which Western will market power from the Central Valley Project (CVP) and the Washoe Project beginning January 1, 2005, and continuing through December 31, 2024. The Marketing Plan provided for a portion of SNR’s resources to be reallocated through a 2015 Resource Pool. On June 3, 2009, Western published a Call for 2015 Resource Pool Applications. On September 28, 2009, Western published a Notice of Extension to file applications. This notice announces Western’s proposed allocations of power from the 2015 Resource Pool.

DATES: Entities interested in commenting on Western’s proposed allocations must submit written comments to Western’s SNR Office at the address below. Western must receive written comments by the close of the comment period. The comment period closes at 4 p.m., Pacific Daylight Time, on August 30, 2010. Entities are encouraged to submit comments through electronic mail or to use certified mail. Comments will also be accepted via regular mail through the United States Postal Service if postmarked at least 3 days before August 30, 2010, and received no later than September 1, 2010. Western reserves the right not to consider comments that are not timely received. After considering the comments, Western will publish a Notice of Final 2015 Resource Pool Allocations in the Federal Register.

ADRESSES: Written comments should be sent to Ms. Sonja Anderson, Power Marketing Manager, Sierra Nevada Customer Service Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, CA 95630, or by electronic mail to 2015RPApps@wapa.gov.

FOR FURTHER INFORMATION CONTACT: Ms. Sonja Anderson, Power Marketing Manager, Sierra Nevada Customer Service Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, CA 95630. (916) 353–4421, or by electronic mail at sanderso@wapa.gov.
