SUPPLEMENTARY INFORMATION: Under the ESA (16 U.S.C. 1531 *et seq.*), the Service maintains a list of endangered and threatened wildlife and plant species at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every 5 years. Then, on the basis of such reviews under section 4(c)(2)(B), we determine whether or not any species should be removed from the list (delisted), or reclassified from endangered to threatened or from threatened to endangered. Delisting a species must be supported by the best scientific and commercial data available and only considered if such data substantiates that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification would require a separate rulemaking process. The regulations in 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review.

This notice announces our active review of the following species that are currently listed as endangered: Delmarva Peninsula fox squirrel, listed in 1967 (32 FR 4001); northeastern bulrush, 1991 (56 FR 21091-21096); and Furbish lousewort, 1978 (43 FR 17910-17916). In addition, we are requesting submission of any such information that has become available since the original listing of the following species as threatened: Chittenango ovate amber snail, 1978 (43 FR 28932-28935), and Virginia round-leaf birch, originally listed as endangered in 1978 (43 FR 17910-17916) and reclassified as threatened in 1994 (59 FR 59173-59177).

Public Solicitation of New Information

To ensure that our 5-year reviews are complete and based on the best available scientific and commercial information, we are soliciting new information from the public, concerned governmental agencies, Tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of the Delmarva Peninsula fox squirrel, northeastern bulrush, Furbish lousewort, Chittenango ovate amber snail, and Virginia round-leaf birch.
