Correction

In the **Federal Register** of July 26, 2010, FR Doc. 2010-18204 filed on July 23, 2010, Volume 75, Number 142, pages 43515-43517, the Board published a notice of its open and closed meetings scheduled on August 5-7, 2010. The notice is hereby amended to include a second closed session meeting on Friday, August 6, 2010 at the conclusion of the full Board meeting, from approximately 4:15 p.m. to 4:30 p.m. The purpose of this closed session is to review and take action on the slate of finalists for submission to Secretary Duncan for the Board's open category of Business Representative. The vacancy in this category has just been announced, and due to the fact that a replacement is needed prior to October 1, 2010 when new Board member terms commence, the Board needs to act on the slate of nominees at

the August 7, 2010 meeting. Therefore this notice is being published in the **Federal Register** less than 15 days before the meeting due to the recent vacancy announcement and the need to fill this position prior to October 1, 2010.

The Board discussions on candidates for vacant Board positions pertain solely to internal personnel rules and practices of an agency and will disclose information of a personal nature where disclosure would constitute an unwarranted invasion of personal privacy. As such, the discussions are protected by exemptions 2 and 6 of section 552b(c) of Title 5 U.S.C.

k. *Description of Request:* The licensee proposes to amend the license for the Upper Red Lake Dam Hydroelectric Project to accelerate the expiration date of the license. The current expiration date of the license is December 31, 2018. The licensee requests the Commission to issue an order accelerating the expiration date of the license to not less than 5 years and 90 days from the date of the Commission order. The reasons for the request follow: (1) The licensee also operates the Weed Dam Hydroelectric Project (FERC Project No. 2464), which is located immediately downstream from the Upper Red Lake Dam Project; (2) the current license for the Weed Dam Project expires June 30, 2015, and the licensee will file a subsequent license application no later than June 30, 2013; and (3) the licensee would like to combine the relicensing activities since the two projects are small in size, approximate in location, and only three and one-half years apart in license expiration date, which would result in substantial savings to the licensee and more effective consultation with resources agencies and other stakeholders.
