Limitation of Liability

In no event will NOAA or the Department of Commerce be responsible for proposal preparation costs if this program is cancelled because of other agency priorities. Publication of this announcement does not oblige NOAA to award any specific project or to obligate any available funds. Applicants are hereby given notice that funding for the Fiscal Year 2011 program is contingent upon the availability of Fiscal Year 2011 appropriations.

Universal Identifier

Applicants should be aware they are required to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number during the application process. See the October 30, 2002, **Federal Register**, (67 FR 66177) for additional information. Organizations can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at 1-866-705-5711 or via the Internet at <http://www.dunandbradstreet.com>.

National Environmental Policy Act (NEPA)

NOAA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for applicant projects or proposals which are seeking NOAA Federal funding opportunities. Detailed information on NOAA compliance with NEPA can be found at the following NOAA NEPA Web site: <http://www.nepa.noaa.gov/>, including our NOAA Administrative Order 216-6 for NEPA, http://www.nepa.noaa.gov/NAO216_6_TOC.pdf, and the Council on Environmental Quality implementation regulations, http://ceq.eh.doe.gov/nepa/regs/ceq/toc_ceq.htm. Consequently, as part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of non-indigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to

coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of an environmental assessment, if NOAA determines an assessment is required. Applicants will also be required to cooperate with NOAA in identifying feasible measures to reduce or avoid any identified adverse environmental impacts of their proposal. The failure to do so shall be grounds for not selecting an application. In some cases if additional information is required after an application is selected, funds can be withheld by the Grants Officer under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable NOAA to make an assessment on any impacts that a project may have on the environment.

The Department of Commerce Pre-award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of October 1, 2001 (66 FR 49917), as amended by the **Federal Register** notice published on: October 30, 2002 (67 FR 66109); December 30, 2004 (69 FR 78389); and February 11, 2008 (73 FR 7696) are applicable to this solicitation.

Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From the Russian Federation; Final Results of the Expedited Sunset Review of Antidumping Duty Suspended Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of expedited sunset review of the antidumping duty suspended investigation on certain hot-rolled flat-rolled carbon-quality steel products from the Russian Federation; final results.

SUMMARY: On April 1, 2010, the Department of Commerce (“the Department”) initiated a sunset review of the antidumping duty suspended

antidumping duty investigation of certain hot-rolled flat-rolled carbon-quality steel products (“hot-rolled steel”) from the Russian Federation (“Russia”).¹ On the basis of the notice of intent to participate, an adequate substantive response submitted on behalf of the domestic interested parties, and no participation from respondent interested parties, the Department conducted an expedited sunset review of the suspended antidumping duty investigation pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C) of the Department’s regulations. As a result of this sunset review, the Department determined that termination of the antidumping duty suspended investigation would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled “Final Results of Review.”

DATES: *Effective Date:* August 5, 2010.

FOR FURTHER INFORMATION CONTACT: Anne D’Alauro or Sally C. Gannon, Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington DC 20230; telephone: 202-482-4830 or 202-482-0162, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 1, 2010, the Department initiated a sunset review of the suspended antidumping duty investigation on hot-rolled steel from Russia in accordance with section 751(c) of the Tariff Act of 1930, as amended (“the Act”). *See Notice of Initiation*, 75 FR 16437 (2010). Section 351.218(d)(1)(i) of the Department’s regulations provides domestic interested parties opportunity to file a Notice of Intent to Participate in a Sunset Review within 15 days of initiation of review. The Department received notices of intent to participate within the applicable deadline specified in section 351.218(d)(1)(i) of the Department’s regulations on behalf of Nucor Corporation, United States Steel Corporation, Gallatin Steel, SSAB North America Division, ArcelorMittal USA, Inc., and Steel Dynamics, Inc. (collectively “domestic interested parties”). The domestic interested parties claimed interested-party status as producers of subject merchandise in the United States as defined by section 771(9)(C) of the Act. In addition, domestic interested parties assert that

they are not related to a foreign producer/exporter and are not importers, or related to importers, of the subject merchandise.

The Department’s regulations at section 351.218(d)(3)(i) state that all interested parties participating in a sunset review must submit a complete substantive response to a Notice of Initiation within 30 days of initiation of the sunset review. On May 3, 2010, the Department received a complete substantive response from the domestic interested parties within the 30-day deadline specified in the Department’s regulations under section 351.218(d)(3)(i). After examining the substantive response from the domestic interested parties, on May 21, 2010, the Department determined that the response was adequate, consistent with the requirements of 19 CFR 351.218(e). *See Memorandum from Anne D’Alauro, Senior Policy Analyst, Office of Policy, Import Administration, to Sally C. Gannon, Director for Bilateral Agreements, Office of Policy, Import Administration, regarding “Sunset Review of the Agreement Suspending the Antidumping Investigation of Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products from the Russian Federation: Adequacy Determination” (May 14, 2010).* *See also* Letter from Barbara E. Tillman, Director, Office 6, AD/CVD Operations, Import Administration, to Ms. Catherine DeFilippo, Director, Office of Investigations, International Trade Commission (May 21, 2010). Although the Department received a letter of appearance on behalf of the Russian Ministry of Economic Development, the Department did not receive any notices of intent to participate or substantive responses from respondent interested parties to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department’s regulations, the Department conducted an expedited (120-day), sunset review of this antidumping duty suspended investigation.

Scope of the Suspended Investigation

See Appendix 1.
