New York Tidal Energy Company; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

July 30, 2010.

On May 12, 2010, New York Tidal Energy Company filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Astoria Tidal Energy Project, located on the East River, in New York City, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) 50 to 150 Tidal In Stream Energy Conversion (TISEC) devices consisting of, (2) rotating

propeller blades, (3) integrated generators with a capacity of 0.5 to 2.0 MW, (4) anchoring systems, (5) mooring lines, and (6) interconnection transmission lines. The project is estimated to have an annual generation of 8.76 gigawatt-hours per-unit per-year, which would be sold to a local utility.
