

number through TTY by calling the toll-free Federal Information Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: Section 1605(a) of the Recovery Act provides that none of the funds appropriated or made available by the Recovery Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States. Section 1605(b) provides that the Buy American requirement shall not apply in any case or category in which the head of a Federal department or agency finds that: (1) Applying the Buy American requirement would be inconsistent with the public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the U.S. in sufficient and reasonably available quantities or of satisfactory quality, or (3) inclusion of iron, steel, and manufactured goods will increase the cost of the overall project by more than 25 percent. Section 1605(c) provides that if the head of a Federal department or agency makes a determination pursuant to section 1605(b), the head of the department or agency shall publish a detailed written justification in the **Federal Register**.

In accordance with section 1605(c) of the Recovery Act and OMB's implementing guidance published on April 23, 2009 (74 FR 18449), this notice advises the public that, in 2010, upon request of the Chicago Housing Authority, HUD granted an exception to the applicability of the Buy American requirements with respect to work, using CFRFC grant funds, based on the fact that the relevant manufactured goods (marmoleum and linoleum floor tiles, ADA-compliant dishwashers, GFCI outlets and an Audio/Video entry and dwelling communications system) are not produced in the U.S. in sufficient and reasonably available quantities or of satisfactory quality.

Dated: August 2, 2010.

Sandra B. Henriquez,
Assistant Secretary for Public and Indian Housing.

National Park Service

Minor Boundary Revision at Sitka National Historical Park

AGENCY: National Park Service, Interior.

ACTION: Notification of Boundary Revision.

SUMMARY: Notice is hereby given that, pursuant to 16 U.S.C. 4601-9(c)(1), the boundary of Sitka National Historical Park, Sitka, Alaska, is modified to include an additional two tracts totaling 4.03 acres of land. These lands are adjacent to the western boundary of the park and are depicted on a map entitled "Sitka National Historical Park, Proposed Boundary" dated October 2009, and numbered 314/80,013.

FOR FURTHER INFORMATION CONTACT: National Park Service, Chief, Land Resources Program Center, 240 W. 5th Avenue, Anchorage, Alaska 99501; telephone (907) 644-3426. The map depicting the revision is on file and available for inspection at this address and at Sitka National Historical Park, 103 Monastery Street, Sitka, Alaska 99853.

DATES: The effective date of this boundary revision is August 11, 2010.

SUPPLEMENTARY INFORMATION: 16 U.S.C. 4601-9(c)(1) provides that, after notifying the House Committee on Natural Resources and the Senate Committee on Energy and Natural Resources, the Secretary of the Interior is authorized to make this boundary revision upon publication of notice in the **Federal Register**. The Committees have been notified of this boundary revision. Inclusion of these lands within the park boundary will enable acquisition of the subject tracts by the National Park Service, one by purchase and one by donation. The lands are necessary for watershed and scenic vista protection, and will provide an opportunity to add a scenic waterfront walkway leading to the park.

Dated: July 12, 2010.

Sue E. Masica,
Regional Director, Alaska Region.

National Park Service

Draft Environmental Impact Statement on Nabesna Off-Road Vehicle Management Plan, Wrangell-St. Elias National Park and Preserve

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of the Draft Environmental Impact Statement, Nabesna Off-Road Vehicle Management Plan, Wrangell-St. Elias National Park and Preserve.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, 42 U.S.C. 4332(2)(C) the National Park Service (NPS) announces the availability of a Draft Environmental Impact Statement (DEIS) on Off-Road Vehicle Management in the Nabesna District of Wrangell-St. Elias National Park and Preserve. The DEIS evaluates the environmental impacts of a preferred alternative and three action alternatives for management of off-road vehicles in the Nabesna District. The purpose is to consider opportunities for appropriate and reasonable access to wilderness and backcountry recreational activities, which also accommodates subsistence and access to inholdings while protecting scenic quality, fish and wildlife habitat, and other park resource values. A no action alternative is also evaluated. This notice announces the public comment period, the locations of public meetings, and solicits comments on the DEIS. This DEIS also provides notice of a proposed technical correction to the wilderness eligibility assessment which was approved in the 1986 Wrangell-St. Elias National Park and Preserve General Management Plan. Public comment on the revised wilderness eligibility map for the Nabesna District is specifically requested.

DATES: The NPS will accept comments on the DEIS for 90 days following publication by the Environmental Protection Agency (EPA) of the Notice of Availability of the Draft Environmental Impact Statement. After the EPA Notice of Availability is published, the NPS will schedule public meetings during the comment period. Dates, times and locations of these meetings will be announced in press releases, local media and on the NPS Planning, Environment and Public Comment (PEPC) Web site for the project at <http://parkplanning.nps.gov/wrst>.

ADDRESSES: Copies of the DEIS will be available for public review at <http://parkplanning.nps.gov/wrst>. Hard copies are available at park headquarters, or may be requested from Meg Jensen, Superintendent, Wrangell-St. Elias National Park and Preserve, P.O. Box 439, Copper Center, Alaska 99573.

SUPPLEMENTARY INFORMATION: This DEIS evaluates the impacts of a range of alternatives for managing off-road vehicles (ORVs) for recreational and subsistence use in the Nabesna District of Wrangell-St. Elias National Park and Preserve. The nine trails under evaluation were in existence at the time the 13.2 million acre park and preserve was established in 1980. The use of

ORVs was determined to be traditionally employed for subsistence activities in the 1986 General Management Plan. Beginning in 1983, the park issued permits for recreational ORV use of these established trails, initially in accordance with 36 CFR 13.14(c), which was replaced by 43 CFR 36.11(g)(2) in 1986. The park issues 200 recreational ORV permits per year on average. The trails also provide for subsistence ORV use and access to inholdings. On June 29, 2006, the National Parks Conservation Association, Alaska Center for the Environment, and The Wilderness Society (Plaintiffs) filed a lawsuit against NPS in the United States District Court for the District of Alaska regarding recreational ORV use on the nine trails that are the subject of this EIS. The plaintiffs challenged the NPS issuance of recreational ORV permits asserting that NPS failed to make the required finding that recreational ORV use is compatible with the purposes and values of the Park and Preserve. They also claimed that the NPS failed to prepare an environmental analysis of recreational ORV use as required by NEPA.

In the May 15, 2007, settlement agreement, NPS agreed to endeavor to complete an EIS, Record of Decision (ROD) and compatibility determination by December 31, 2010, during which time recreational use of ORVs on the Suslota Lake Trail, Tanada Lake Trail, and a portion of the Copper Lake Trail will be permitted only when the ground is frozen. The NPS may continue to issue permits for recreational ORV use of the remaining six trails through the year 2010.

The DEIS considers a reasonable range of alternatives based on project purpose and need, and considering park resources and values, and public input. For recreational ORV use in national preserves, Section 4.10(b) of the NPS regulations in Title 36 of the Code of Federal Regulations (CFR) implements Executive Orders 11644 and 11989 and provides that routes and areas designated for off-road vehicle use be promulgated as special regulations. Alternatives that consider recreational ORV use on park land or closure of areas to subsistence use of ORVs (confined to trails) would also require a park-specific regulation.

Alternative 1 evaluates the impacts of the no-action and describes conditions under the lawsuit settlement. Recreational ORV use would be permitted on all trails except Suslota, Tanada Lake, or Copper Lake trails, until the ground is frozen. There would

be no change to subsistence ORV use and no trail improvements.

Alternative 2 would permit recreational ORV use on all nine trails. There would be no change to subsistence ORV use and no trail improvements.

Alternative 3 would prohibit recreational ORV use. Subsistence ORV use would continue, and some trail improvements would be made. Trail conditions would be monitored, and adaptive management steps would be taken to prevent further resource degradation.

Alternative 4 would permit recreational ORV use on designated trails in the preserve (Caribou Creek, Lost Creek, Trail Creek, Soda Lake, Reeve Field) once improvements are made, but not in the park (Tanada Lake, Copper Lake, Boomerang). All trails (except Suslota) would be improved to at least a maintainable condition through trail hardening, tread improvement, or constructed re-routes. Subsistence ORV use would continue subject to monitoring and management activities in the same manners as alternative 3.

Alternative 5 would permit recreational ORV use on all nine trails. All trails (except Suslota) would be improved to at least a maintainable condition as under alternative 4. Until improved, recreational ORV use would not be permitted on trails with the most resource degradation (Tanada Lake, Suslota, and Copper Lake) and subsistence ORV use would continue to be subject to monitoring and adaptive management steps in the same manner as alternative 3, and would be confined to trails in park wilderness. Alternative 5 is the NPS Preferred Alternative.

Public meetings will be held in Anchorage, Fairbanks, Tok, Slana, and Glennallen, Alaska. The specific dates and times will be announced in local media.

If you wish to submit comments electronically, you may submit your comments online in the PEPC Web site by visiting <http://parkplanning.nps.gov/wrst>. NPS encourages commenting electronically through PEPC. If you wish to submit written comments in hard copy (e.g. in a letter) you may send them by U.S. Postal Service or other mail delivery service or hand-delivered to Meg Jensen, Superintendent, Wrangell-St. Elias National Park and Preserve, P.O. Box 439, Copper Center, Alaska 99573. Oral statements and written comments will also be accepted during the public meetings. Bulk comments in any format (hard copy or electronic) submitted on behalf of others will not be considered. Before including your

address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: Bruce Rogers, Project Manager, Wrangell-St. Elias National Park and Preserve, P.O. Box 439, Copper Center, Alaska 99573. Telephone: 907-822-7276.

Victor W. Knox,

Acting Regional Director, Alaska.

Bureau of Land Management

[LLMT926000-10-L19100000-BJ0000-LRCM08RS4029]

Notice of Filing of Plats of Survey; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of filing of plats of survey.

SUMMARY: The Bureau of Land Management (BLM) will file the plat of survey of the lands described below in the BLM Montana State Office, Billings, Montana, September 10, 2010.

FOR FURTHER INFORMATION CONTACT: Randy Thomas, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669, telephone (406) 896-5134 or (406) 896-5009.

SUPPLEMENTARY INFORMATION: This survey was executed at the request of the Superintendent, Fort Peck Agency, through the Rocky Mountain Regional Director, Bureau of Indian Affairs, and was necessary to determine boundaries of trust or tribal interest lands.

Principal Meridian, Montana
