The notice was published in the **Federal Register** on September 22, 2009 (74 FR 48300).

At the request of the State Agency, the Department reviewed the certification for workers of the Technology and Engineering Division, and Finance and Administration Division.

Additional information revealed that workers of the Technology and Engineering Division, and Finance and Administration Division were adversely affected by the firm's shift in production of oil field service equipment from the Duncan, Oklahoma facility to India, China, Malaysia and Mexico, which was the basis for certification of TA-W-70,232. In addition, a significant number or proportion of workers of the Technology and Engineering Division and Finance and Administration Division were separated during the relevant period.

Workers of Halliburton Company, Technology and Engineering Division, and Finance and Administration Division, Duncan, Oklahoma, were certified eligible for trade adjustment assistance in a subsequent investigation, TA-W-73,525 and TA-W-73,525A, respectively. The impact date for both

certifications is February 17, 2009. Halliburton Company also employs a separate group of workers in the Duncan Field Camp Division, who did not support the production of oil field service equipment. Workers of Duncan Field Camp Division were denied eligibility for trade adjustment assistance per TA-W-73,525B and are not subject to this amendment.

The intent of the Department's amended certification is to cover workers in the Technology and Engineering Division and Finance and Administration Division who were separated on or after the impact date of TA-W-70,232 on May 19, 2008 through the impact date of TA-W-73,525 and TA-W-73,525A on February 17, 2009.
