SUPPLEMENTARY INFORMATION:

I. General Information

The U.S. Environmental Protection Agency plans to create a Privacy Act system of records to document the Agency's decisions on applications filed requesting certification to apply restricted use pesticides (RUP) under certification plans administered by EPA regional offices or the Office of Pesticide Programs. The types of information in the system include: (1) Contact information (e.g., name, address, telephone number, e-mail address); (2) identification information (e.g., birth date, proof of identification (e.g., driver's license no.)), physical description (e.g., height, weight, gender, race)) (3) certification information (e.g., EPA certified applicator number, certification type (private or commercial), certification categories (e.g., aerial, aquatic, fumigation), certification issuance and expiration dates, and (4) information regarding qualifications (e.g., scores from EPA certification examinations; records of training and continuing education; state, tribal or other federal agency certification number(s), types, categories, issuance and expiration dates; records of compliance with federal, state and tribal pesticide laws). Some of this information is provided by the pesticide applicators applying for EPA certification, and some is generated during the certification process.

The above information will be contained in one or more databases (such as Lotus Notes) that reside on servers in EPA offices. The database(s) may be specific to one particular pesticide applicator certification plan, or may encompass several EPA pesticide applicator certification plans. Records maintained in the database will include applications, certifications, Agency decisions and correspondence related to applicators seeking and maintaining EPA certifications.

Records protected under the Privacy Act are subject to Agency-wide security requirements governing all database systems at EPA. Privacy is maintained by limiting access to database systems containing personal information. Access to any such database system is limited to system administrators, individuals responsible for evaluating the applications and issuing the EPA certification, and program personnel responsible for data entry. Physical access to the area where certifications are processed is limited to EPA employees with building key cards. Paper applications are stored in a locked cabinet when not in use. System administrators will routinely disclose certain personal information (e.g.,

names, addresses, EPA certification numbers, categories of certification) upon request. EPA's Office of Pesticide Programs, Field & External Affairs Division, will exercise general oversight of the system of records associated with EPA-administered pesticide applicator certification plans; databases for particular pesticide applicator certification plans may be maintained by EPA regional offices and other divisions of the Office of Pesticide Programs as authorized by the Field & External Affairs Division.

Dated: July 19, 2010.

Principal Deputy Assistant Administrator and Deputy Chief Information Officer.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Contact information (*e.g.*, name, address, telephone number, email address).

(b) Identification information (*e.g.*, birth date, proof of identification (*e.g.*, driver's license no.), physical description (*e.g.*, height, weight, gender, race)).

(c) Data generated by EPA in the processing of the EPA certification (*e.g.*, EPA certified applicator number, certification type (private or commercial), certification categories (*e.g.*, aerial, aquatic, fumigation), certification issuance and expiration dates).

(d) Information regarding qualifications (*e.g.*, scores from EPA certification examinations; records of training and continuing education; state, tribal or other federal agency certification number(s), types, categories, issuance and expiration dates; records of compliance with federal, state and tribal pesticide laws).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM (INCLUDES ANY REVISIONS OR AMENDMENTS):

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 11(a)(1) provides for the certification of RUP applicators. 40 CFR 171.11 further describes certification procedures including the completion and submission of certification applications to EPA, issuance/revocation of certificates, monitoring of certifications, and applicator recordkeeping requirements.

PURPOSE(S):

The primary purpose of the system is to track RUP applicator certifications issued by EPA under pesticide applicator certification plans, including the initial applications/issuance and any renewals, denials, or revocations of certifications. Certified applicators are subject to RUP recordkeeping requirements under FIFRA, section 11 and 40 CFR part 171. ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

RUPs may not be distributed, sold, or made available to persons other than certified applicators. The system will be used to record the identity and certification status of pesticide applicators certified by EPA. Certain personal information contained in the system (*e.g.*, date of birth, drivers' license numbers) will be protected from general disclosure under the Privacy Act; however, many of the records will be subject to general routine uses (<http://www.epa.gov/privacy/notice/general.htm>), particularly routine uses A, B, C, F, G, H, and K. Such routine uses will include disclosures to RUP retailers and dealers in order to verify the status of persons claiming to be certified by EPA, and to state or tribal officials intending to grant certifications based upon EPA's prior certification. Information from this system also may be disclosed for law enforcement purposes to federal, state, and tribal officials responsible for pesticide enforcement. Disclosure will assist in determining compliance and non-compliance with Federal, State, and tribal requirements of certified applicators.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

- Storage: Records will be stored using the Agency's standard database system (*e.g.*, Lotus Notes) and managed

by system administrators and Pesticide Office personnel.

- Retrievability: Data will be retrieved by the applicator's name and certification action (*e.g.*, new, recertification, duplicate).

- Safeguards:
 - Standard Agency-wide protections for internal databases.

- The access control list is limited to Agency system administrators, individuals responsible for evaluating applications and issuing the EPA certifications and program personnel responsible for data entry. No other EPA personnel have access to the database(s). Program personnel are trained to protect sensitive and confidential information submitted under FIFRA. No external access to the system is provided.

- Retention and Disposal: Records stored in this system are subject to Schedule 090.

- System Manager(s) and Address: Jenna Carter, Office of Pesticide Programs, Field & External Affairs Division, U.S. Environmental Protection Agency, Mail Code 7506P, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number 703-308-8370.

Synopsis

The Compensation Rates for VRS for the 2010-2011 Fund Year

1. The Commission adopts interim, one-year rates of \$6.2390 for Tier I, \$6.2335 for Tier II, and \$5.0668 for Tier III for VRS by averaging NECA's proposed per-minute rates calculated as a measure of actual, historical provider costs, and the current rates, which were based on providers' projected costs. Projected costs for VRS for a given Fund year have consistently proven to be higher than actual costs for that Fund year, and there is currently no "true-up" mechanism for reconciling, after the Fund year, the rates at which providers are reimbursed from the Fund and their actual costs for the Fund year. By NECA's calculation, the rates based on actual, historical costs would be \$5.7754 for Tier I, \$6.0318 for Tier II, and \$3.8963 for Tier III for the 2010-2011 Fund year, all of which include

allowances of 1.6% for cash working capital, 3.2% for growth in expenses, and \$0.0083 per minute for ongoing E911 and ten-digit numbering costs. However, in light of concerns expressed by providers and users, and to ensure sufficient, quality service for users while the Commission considers broad reform, the Commission declines to reduce the VRS rates to that level at this time.

2. *Interim VRS Rates for the 2010-2011 Fund Year.* The Commission finds that adopting a multi-year rate structure would be premature at this time. The Commission believes that establishing multi-year VRS rates at this time may hamper the Commission's efforts to implement in a timely manner reforms that the Commission may determine are needed as a result of the *2010 VRS NOI* proceeding. See *Structure and Practices of the Video Relay Service Program*, CG Docket No. 10-51, Notice of Inquiry, FCC 10-111, published at 75 FR 41863, July 19, 2010 (*2010 VRS NOI*).

3. *Rates Based on Actual vs. Projected Costs for VRS.* The Commission finds that NECA's use of providers' actual, historical costs in proposing VRS rates provides a valuable point of reference for setting VRS rates. Specifically, a comparative analysis by NECA of providers' projected and actual cost and demand over the past several years reveals that there is a substantial disparity between providers' reported projected costs and demand, and what turns out to be their actual costs and demand. In particular, based on the data received from providers, NECA indicates that VRS providers' weighted average actual per-minute costs as submitted to NECA were \$4.4603 in 2006, \$3.9604 in 2007, \$4.1180 in 2008, and \$4.1596 in 2009. By contrast, the compensation rates were in the following ranges for each of those years: \$6.644 in 2006, \$6.444 to \$6.77 in 2007, \$6.30 to \$6.7632 in 2008, and \$6.2373 to \$6.7362 in 2009. In addition, in the past, the Commission has not provided a process for reconciling providers' actual costs to their compensation from the Fund, and the Commission declines to do so here.

4. With the benefit of four years' data showing that providers' projections consistently overstate their costs, the Commission concludes that it can no longer justify basing VRS compensation rates only on projected costs. Furthermore, NECA, which has been the Fund administrator since the inception of the Fund, used weighted averages in proposing tiered rates based on actual costs. To the extent that one provider commands a substantial share of the VRS market, the Commission finds that
