Proposed Project—Whistleblowers Study—OMB No. 0990—New—Office of Research Integrity (ORI).

Abstract: The Office of Research Integrity (ORI) proposes to do a study to determine what questions whistleblowers want answered from Research Integrity Officer (RIOs) when deciding to file an allegation of research misconduct.

To guide RIOs to be well-prepared to provide answers to the kinds of questions that complainants (whistleblowers) and potential complainants ask RIOs at different stages of the research misconduct allegation resolution process is critical to the smooth and effective conduct of that process. Complainants and potential complainants need to know what is in store for them during the process employed by the institution to resolve allegations of research misconduct. They need to know the steps involved in the process, the support available to them, and the safeguards afforded them against retaliation. This study will seek to obtain information from RIOs concerning the questions complainants have and when they arise, as well as what responses RIOs provide when they do.

Abstract: The Office of Civil Rights is requesting a 3 year extension of the Civil Rights Information Request Form for a 3 year extension. The Civil Rights Information Request Form is designed to collect data from health care providers who have requested certification to participate in the Medicare Part A program.
