

appropriations; (3) provides guidance, manages and coordinates the Agency budget plans and formulates and presents SAMHSA's future budget and financial management activities; (4) provides leadership and direction in the Agency-wide review, analysis and appraisal of financial elements of program execution and the development and execution of policies related to efficient allocation, expenditure and control of funds; (5) develops and executes Agency-wide procedures relating to implementation and management of the Government Performance and Results Act (GPRA); (6) coordinates and manages General Accounting Office (GAO) and Office of Inspector General (OIG) reviews of the agency, analyzes results, and develops agency response; (7) develops extramural policy and guidance addressing peer and council review, interagency agreements, and jointly funded grant programs; (8) conducts all aspects of the SAMHSA contracts management process; (9) conducts all aspects of the SAMHSA grants management process; and (10) plans, administers, and coordinates the review of grant and cooperative agreement applications and contract proposals.

Office of Policy, Planning and Innovation (MD)

The Office of Policy, Planning and Innovation provides an integrated and structured approach for the identification and adoption of policies and innovative practices that improve behavioral health services outcomes. The Office represents the Agency at meetings both internal and external and raises SAMHSA's profile in health services research by collaborating with other Departments and Agencies, such as the National Institutes of Health, the Centers for Disease Control and Prevention, and the Center for Medicare and Medicaid Services, to facilitate the adoption of data-driven policies and practices by those working in the field to improve behavioral health outcomes. While SAMHSA's primary mission is to serve those with behavioral health needs and foster health improvements, many partners and allies exist within other fields which also play a crucial role in supporting and improving behavioral health. The Office will seek to influence these partners and allies to encourage inclusion of behavioral health within their policy initiatives.

Delegation of Authority

All delegations and re-delegations of authority to officers and employees of SAMHSA which were in effect immediately prior to the effective date

of this reorganization shall continue to be in effect pending further re-delegations, provided they are consistent with this reorganization.

This delegation of authority is effective immediately.

Dated: July 20, 2010.

Kathleen Sebelius,
Secretary.

Transportation Security Administration

New Agency Information Collection Activity Under OMB Review: Pipeline System Operator Security Information

AGENCY: Transportation Security Administration, DHS.

ACTION: 30-day notice.

SUMMARY: The Transportation Security Administration (TSA) has forwarded the new Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and approval under the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on July 29, 2009, 74 FR 37723. The collection involves the submission of contact information for the company's primary and alternate security manager and the telephone number of the security operations or control center, as well as data concerning pipeline security incidents.

In response to July 29, 2009 notice, TSA received four comments from industry stakeholders. Letters addressing their respective comments have been sent to each stakeholder. No comments were submitted regarding the submission of contact information for a pipeline company's primary and alternate security manager and the telephone number of the security operations or control center.

The primary focus of the comments received pertained to the reporting of security incidents and suspicious activity to the Transportation Security Operations Center (TSOC). Recommendations were made for TSA to clarify the intent of the incident reporting criteria and examples. As a result, TSA modified the Pipeline Security Guidelines to reflect TSA's desire to be notified of all incidents which are indicative of a deliberate

attempt to disrupt pipeline operations or activities that could be precursors to such an attempt. Such information is necessary for TSA to fulfill its responsibilities as the lead Federal agency for pipeline security.

Several comments discussed the potential for duplicative reporting of security incidents to both the TSOC and the National Response Center (NRC). 49 CFR parts 191 and 195 mandate that pipeline operators report incidents involving the release of natural gas or hazardous liquids to the NRC. There is no requirement under these regulations to report suspicious activity. Additionally, based on 33 CFR part 101 facilities operating under the Maritime Transportation Security Act (MTSA) are required to report incidents and suspicious activity to the NRC. TSOC has coordinated with the NRC to obtain pipeline incident/suspicious activity reports that may be of concern to TSA in the event that a pipeline operator submits a report only to the NRC. However, the vast majority of events that TSA requests operators report would not fall into these categories. This is supported by the actual pipeline operator incident/suspicious activity reporting that TSA has observed over the past five years. Consequently, TSA believes that duplicative reporting, if it occurs, would be minimal.

DATES: Send your comments by September 15, 2010. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395-6974.

FOR FURTHER INFORMATION CONTACT: Joanna Johnson, Office of Information Technology, TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011; telephone (571) 227-3651; e-mail Joanna.Johnson@dhs.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>.

Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Pipeline System Operator Security Information.

Type of Request: New collection.

OMB Control Number: Not yet assigned.

Form(s): NA.

Affected Public: Pipeline system operators.

Abstract: Under the Aviation and Transportation Security Act (ATSA) (Pub. L. 107–71, 115 Stat. 597 (November 19, 2001) and delegated authority from the Secretary of Homeland Security, pipeline transportation is a mode of transportation over which TSA has jurisdiction for security matters. As discussed in the draft Pipeline Security Guidelines, in order to execute its pipeline transportation security responsibilities, TSA requests that operators provide, on a voluntary basis, security manager and operations center contact information. Additionally, TSA seeks to be notified of all incidents that are indicative of a deliberate attempt to disrupt pipeline operations or activities that could be precursors to such an attempt.

Number of Respondents: 3,140.

Estimated Annual Burden Hours: An estimated 145 hours annually.

Issued in Arlington, Virginia, on August 10, 2010.

Joanna Johnson,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

Bureau of Land Management

[LLID100000–L10200000–PH0000]

Notice of Public Meeting, Idaho Falls District Resource Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meetings.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Idaho Falls District Resource Advisory Council (RAC), will meet as indicated below.

DATES: The Idaho Falls District RAC will meet in Idaho Falls, Idaho on September 21–22, 2010 for a two day meeting at the Upper Snake Field Office located at 1405 Hollipark Drive, Idaho Falls, Idaho 83401. The first day will begin at 8 a.m. and adjourn at 4:30 p.m. The second day will begin at 8 a.m. and adjourn at 3:30 p.m. Members of the public are invited to attend. A comment period will be held following the introductions at 8 a.m. All meetings are open to the public.

SUPPLEMENTARY INFORMATION: The 15-member Council advises the Secretary of the Interior, through the Bureau of Land Management, on a variety of planning and management issues associated with public land management in the BLM Idaho Falls District (IFD), which covers eastern Idaho.

Items on the agenda will include an overview of the current issues affecting the District and Field Offices, review and approval of past meeting minutes, a public comment period, discussion on the Salmon Travel Management Plan (TMP) and a presentation of the Champagne Creek reclamation issues. Agenda items and location may be modified due to changing circumstances. Following the presentations and overviews, tours will be conducted throughout the Upper Snake Field Office area to discuss policy issues affecting the region such as the Jefferson Fire rehabilitation efforts, Egin Lake Recreation area and Sand Dunes management, and the Land and Water Conservation Fund (LWCF) and the critical role it plays in restoring and retaining critical habitat along the South Fork of the Snake River.

All meetings are open to the public. The public may present written comments to the Council. Each formal Council meeting will have time allocated for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, tour transportation or other reasonable accommodations, should contact the BLM as provided below.
