Rural Housing Service

Title: Non-Profit Customer Voluntary Survey on the Equal Treatment Rule.

OMB Control Number: 0575-0192.

Summary of Collection: In accordance with the Government Performance and Results Act and Executive Order 13280, Responsibilities of the Department of Agriculture and the Agency for International Development With Respect to Faith-Based and Community Initiatives, the survey will measure Rural Development's implementation of and compliance with the Equal Treatment Rule (7 CFR part 16) as well as implement action plans and measure improvements. The 14 Rural Development programs under the Faith-Based and Community Initiatives provide insured or guaranteed loans and/or grants to eligible applicants (including non-profit entities) located in rural geographic areas to assist them in providing services to beneficiaries, low-income individuals and communities.

Need and Use of the Information: To facilitate improved participant outcome, and in an effort to continuously improve program services, the survey can measure impediments that applicants may have encountered when they submitted an application. The outcome of the Voluntary Survey on the Equal Treatment Rule will provide the general satisfaction level among non-profit borrowers throughout the nation, highlight areas that need improvement, provide a benchmark for future surveys, and improvement in implementation of and compliance with the Equal Treatment Rule.

Description of Respondents: Not-for-profit institutions.

Number of Respondents: 4,000.

Frequency of Responses: Reporting: One time.

Total Burden Hours: 320.

SUPPLEMENTARY INFORMATION:

Title: Agricultural Surveys Program.

OMB Control Number: 0535-0213.

Expiration Date of Approval: December 31, 2010.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop management practices, as well as the Census of Agriculture. The Agricultural Surveys Program contains a series of surveys that obtains basic agricultural data from farmers and ranchers throughout the Nation for preparing agricultural estimates and forecasts of crop acreage, yield, and production; stocks of grains and soybeans; hog and

pig numbers; sheep inventory and lamb crop; cattle inventory; cattle on feed; grazing fees; and land values. Uses of the statistical information collected by these surveys are extensive and varied. Producers, farm organizations, agribusinesses, commodity exchanges, State and national farm policy makers, and government agencies are important users of these statistics. Agricultural statistics are used to plan and administer other related Federal and State programs in such areas as consumer protection, conservation, foreign trade, education, and recreation.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average less than 15 minutes per response.

Respondents: Farmers and ranchers.

Estimated Number of Respondents: 400,000.

Estimated Total Annual Burden on Respondents: 170,000 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or

other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, July 27, 2010.

Joseph T. Reilly,
Associate Administrator.

FOR FURTHER INFORMATION CONTACT: H. Ken Cordell, Research Work Unit SRS-4953, 706-559-4263. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339, between 8 a.m. and 8 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title: National Survey on Recreation and the Environment.

OMB Number: 0596-0127.

Expiration Date of Approval: 1/31/11.

Type of Request: Extension with Revisions.

Abstract: Federal land-managing agencies are responsible for the

management of more than 650 million acres of public lands; this includes management for recreation opportunities. To manage well and wisely, knowledge of recreation demands, opinions, preferences, and attitudes regarding the management of these lands is imperative and necessary to the development of effective policy, planning, and on-the-ground management. For all Federal agencies, input from and knowledge about the public is mandatory.

For the Forest Service (U.S. Department of Agriculture) and other management agencies, the collection and analysis of public demand data are vital to designing effective policies and programs for the management and use of water, forest, range, and wildlife resources. Authorizing legislation for this collection is the Forest and Rangeland Renewable Resources Planning Act (RPA) (Pub. L. 93-378-88 Stat. 475), which directs the Secretary of Agriculture to assess the status of the Nation's forest and range lands periodically and to recommend a Forest Service program for their sustained management and use. Among the program areas included in the Forest Service assessment are outdoor recreation and wilderness.

The Forest Service is the agency responsible for the survey. This is the tenth in a series of national recreation surveys conducted since 1960. The survey:

- (1) Measures the public demand for the Nation's land, water, and other natural resources for outdoor recreation;
- (2) Identifies public perceptions of accessibility and suitability of recreational sites;
- (3) Seeks public feedback regarding the management of public recreation sites and natural resources;
- (4) Asks for suggestions on how public agencies can improve management of public recreation areas and natural resources;
- (5) Seeks information on public attitudes about the environment and about the use and management of natural resources;
- (6) Identifies shifts in recreational demands that might influence the delivery of recreational services; and
- (7) Obtains information concerning the amount of time and type of activities that children spend outdoors (*i.e.*, information obtained from parent or guardian).

The survey consists of a telephone survey of 30,000 individuals, age 16 or older, residing in the United States and will be conducted using computer assisted telephone interviewing (CATI) technology. The Human Dimensions

Research Laboratory at the University of Tennessee in Knoxville, TN will likely conduct the telephone interviews and data collection. A team of research scientists representing the main Federal agencies involved in the survey will analyze the data. Both English and Spanish versions of the questionnaires will be used.

Estimate of Annual Burden: 10 minutes per respondent (0.167 hr).

Type of Respondents: Individuals.

Estimated Annual Number of Respondents: 10,000.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1,670 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Dated: August 10, 2010.
