[Docket No. PF10–15–000]

Leader One Energy, LLC; Supplemental Notice of Intent To Prepare an Environmental Assessment for the Planned Leader One Gas Storage Project and Request for Comments on Environmental Issues

August 6, 2010.

On July 30, 2010, Leader One Energy, LLC (Leader One) filed its intent to modify the Leader One Gas Storage Project in Adams County, Colorado, by adding more pipeline facilities. Leader One has also revised the design capacity of the planned storage field. On April 30, 2010, a Notice of Intent to Prepare an Environmental Assessment (original NOI) was issued for the project as originally planned. This Supplemental Notice of Intent (supplemental NOI) addresses these changes. The original NOI is attached to this document, so certain information included in it will not be repeated in the supplemental NOI including the original project description, information about becoming an intervenor, and how to find additional information about the project.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Leader One Gas Storage Project involving construction and operation of the facilities planned by Leader One, including the supplemental facilities. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the supplemental facilities for the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the scoping period will close on September 7, 2010.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Leader One plans to convert a depleted natural gas reservoir to a new natural gas storage facility and, also, to construct and operate about 17.6 miles of 24-inch-diameter pipeline, the Leader One Header Pipeline, to connect the storage facility to Colorado Interstate Gas Company's (CIG) High Plains Pipeline. The storage facility would have a revised design of 13 billion cubic foot (Bcf) storage capacity of which
