Description: *Displaying the Minimum Safe Distance (§ 1910.126(g)(4))*—This provision requires the employer to determine how far away goods being electrostatically deteared should be separated from electrodes or conductors. This distance is called the “safe distance.” This minimum distance must be displayed conspicuously on a sign located near the equipment. OSHA has determined that where electrostatic equipment is being used, the information has already been ascertained and that the “safe distance” has been displayed on a sign in a permanent manner.

For additional information, see related notice published in the **Federal Register** on April 5, 2010, (Vol. 75, page 17162).
