POLICY JUSTIFICATION

Kuwait – MIM-104E PATRIOT Guidance Enhanced Missile-T (GEM-T)

The Government of Kuwait has requested a possible sale of 209 MIM-104E PATRIOT Guidance Enhanced Missile-T (GEM-T) Missiles. The estimated cost is \$900 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

Kuwait needs these missiles to meet current and future threats of enemy air-to-ground weapons. Kuwait will use the increased capability as a deterrent to regional threats and to strengthen its homeland defense. Kuwait will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Corporation in Tewksbury, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 10-34

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act

Annex  
Item No. vii

## (vii) Sensitivity of Technology:

1. The PATRIOT Air Defense System contains classified secret components and critical/sensitive technology. The requested purchase will not increase the existing Kuwait PATRIOT system capabilities.

2. Loss of the hardware, software, documentation and/or data could permit development of information leading to the exploration of countermeasures and provide a significant threat to future U.S. military operations. If an adversary were to obtain this sensitive technology, the missile system effectiveness could be compromised through reverse engineering techniques.

3. The Kuwait GEM-T missile will include the release of hardware and associated documentation. The highest classification is Secret.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

**DEPARTMENT OF DEFENSE****Department of the Army; Corps of Engineers****Withdrawal of Notice for Preparation of an Environmental Impact Statement (EIS) for the Arkansas White River Cutoff Study**

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice.

**SUMMARY:** The Little Rock District of the U.S. Army Corps of Engineers (Corps) is withdrawing its intent to prepare an Environmental Impact Statement (EIS) for the Arkansas White River Cutoff Study. The original Notice of Intent

(NOI) was published in the *Federal Register* on June 20, 2003 (68 FR 36974). The Corps has determined that a long term solution that is economically justified and environmentally acceptable cannot be determined under current authorities and funding at this time.

**FOR FURTHER INFORMATION CONTACT:** Ms. Dana Coburn, Chief, Environmental Branch, Planning and Environmental Division, PO Box 867, Little Rock, Arkansas 72203-0867, Telephone 501-324-5601, e-mail: [Dana.O.Coburn@usace.army.mil](mailto:Dana.O.Coburn@usace.army.mil).

**SUPPLEMENTARY INFORMATION:** The purpose of the EIS was to present alternatives and assess the impacts associated with implementation of environmentally sustainable solutions for reducing head-cutting and scouring in the Ark-White Cutoff area. The two rivers are attempting to join in this area and are strongly influenced by high water in the Mississippi River. The study area included the Lower Arkansas River below Dam #2, the lower 5-10 miles of the White River in Arkansas, and any adjacent landmasses that are presently being impacted or could be potentially impacted by the alternatives. There are numerous public and private entities that have a variety of interests within the study area. Head-cutting in
