

Transmittal No. 10-34

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The PATRIOT Air Defense System contains classified secret components and critical/sensitive technology. The requested purchase will not increase the existing Kuwait PATRIOT system capabilities.

2. Loss of the hardware, software, documentation and/or data could permit development of information leading to the exploration of countermeasures and provide a significant threat to future U.S. military operations. If an adversary were to obtain this sensitive technology, the missile system effectiveness could be compromised through reverse engineering techniques.

3. The Kuwait GEM-T missile will include the release of hardware and associated documentation. The highest classification is Secret.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.
