Comment Date: August 31, 2010.

Kimberly D. Bose, Secretary.

Environmental Protection Agency

Environmental Impacts Statements; Notice of Availability

Weekly receipt of Environmental Impact Statements

Notice: In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA’s comment letters, in the Federal Register. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: http://www.epa.gov/compliance/nepa/eisdata.html. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA’s comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the Federal Register.

Dated: August 17, 2010.

Ken Mittelholz, Deputy Director, NEPA Compliance Division, Office of Federal Activities.

Agency: Environmental Protection Agency (EPA).

Action: Notice of Extension Availability of Draft NPDES General Permit.

Summary: On April 20, 2010, the Director of the Office of Ecosystem Protection, Environmental Protection Agency-Region 1 (EPA), issued a Notice of Availability of a draft NPDES general permit for storm water discharges in the Charles River watershed within Milford, Bellingham and Franklin, Massachusetts, from sites that are proposed for final designation for NPDES permitting pursuant to EPA’s residual designation authority, and a Notice of Availability of Proposed Amendments to the Preliminary Residual Designation Issued by EPA on November 12, 2008.

Agency: Environmental Protection Agency (EPA).

Action: Notice of Extension Availability of Draft NPDES General Permit.

Summary: Today EPA is extending the public comment period for the draft permit and proposed Residual Designation until September 30, 2010. The draft general permit, appendices, and fact sheet are available at: http://www.epa.gov/region/npdes/stormwater.

Dates: The public comment period is extended to September 30, 2010. Interested persons may submit comments on the draft general permit.
and the proposed Residual Designation to EPA—Region 1, at the address given below, no later than midnight September 30, 2010. Those comments will be placed in the administrative record for the designation and permit. The general permit shall be effective on the date specified in the Federal Register publication of the Notice of Availability of the final general permit. The final general permit will expire five years from its effective date.

**ADDRESSES:** Submit comments identified by Docket ID No. EPA–R01–OW–2010–0292 by one of the following methods:

- http://www.regulations.gov: Follow the on-line instructions for submitting comments
- E-mail: Voorhees.mark@epa.gov

No facsimiles (faxes) will be accepted.

**FOR FURTHER INFORMATION CONTACT:** Additional information concerning the draft permit may be obtained between the hours of 9 a.m. and 5 p.m. Monday through Friday excluding holidays from: Mark Voorhees, Office of Ecosystem Protection, Environmental Protection Agency, 5 Post Office Square—Suite 100, telephone: 617–918–1537; e-mail: Voorhees.mark@epa.gov.

DATED: August 12, 2010.

Ira Leighton,
Acting Spalding, Regional Administrator, Region 1

---

**FEDERAL COMMUNICATIONS COMMISSION**

**Notice of Public Information Collection(s) Approved by the Office of Management and Budget**

August 13, 2010.

**SUMMARY:** The Federal Communications Commission has received Office of Management and Budget (OMB) approval for the following public information collection(s) pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid OMB control number. Comments concerning the accuracy of the burden estimate(s) and any suggestions for reducing the burden should be directed to the person listed in the “FOR FURTHER INFORMATION CONTACT” section below.

**FOR FURTHER INFORMATION CONTACT:** For additional information contact Melissa Kirkel, melissa.kirkel@fcc.gov, (202) 418–7958.

**SUPPLEMENTAL INFORMATION:**

- Title: Sections 52.21 through 52.36, Telephone Number Portability (47 CFR Part 52, Subpart C) and CC Docket No. 95–116.
- Form Number: N/A.
- Estimated Annual Burden: 3,616 respondents; 10,001,890 responses; 672,516 total annual hours; 4 minutes–410 hours per response.
- Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 1, 2, 3, 251 and 332 of the Communications Act of 1934, as amended.
- Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the Commission. If the Commission requests respondents to submit information which the respondents believe is confidential, respondents may request confidential treatment under 47 CFR 0.459 of the Commission rules.
- Needs and Uses: The Commission has revised this information collection (IC) by adding standardized local service request data fields. Section 251(b)(2) of the Telecommunications Act of 1996 requires LECs to “provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission.” Through the Local Number Portability (LNP) process, consumers have the ability to retain their phone number when switching telecommunications service providers, enabling them to choose a provider that best suits their needs and enhancing competition. In the Porting Internal Order and Further Notice, the Commission mandated a one-business day porting interval for simple wireline-to-wireline and intermodal port requests. The information collected in the standard local service request data fields is necessary to complete simple wireline-to-wireline and intermodal ports within the one business day porting interval mandated by the Commission and will be used to comply with section 251 of the Telecommunications Act of 1996. Part 52, Subpart C implements the statutory requirements that LECs and Commercial Mobile Radio Service (CMRS) providers provide LNP as set forth in Sections 1, 2, 4, 251, and 332 of the Telecommunications Act of 1996. The Commission requires the following information to be collected from various entities: (1) Requests for long-term number portability; (2) petitions to extend implementation deadline; (3) tariffs and cost support materials; and (4) recordkeeping requirement.

- (1) Long-term number portability must be provided by LECs and CMRS providers in switches for which another carrier has made a specific request for number portability, according to the Commission’s deployment schedule. Wireline carriers began providing LNP in 1998. In a Memorandum Opinion and Order, FCC 02–215, CC Docket No. 95–116, the Commission extended the deadline for CMRS providers to offer LNP. CMRS providers began offering LNP in 2003.
- (2) Carriers that are unable to meet the deadlines for implementing a long-term number portability solution are required to file with the Commission at least 60 days in advance of the deadline a petition to extend the time by which implementation in their network will be completed.
- (3) Incumbent LECs may recover their carrier-specific costs directly related to providing long-term number portability by establishing in tariffs filed with the Commission certain number portability charges. See 47 CFR 52.33. Incumbent LECs are required to include many details in their cost support that are unique to the number portability proceeding pursuant to the Cost Classification Order. For instance, incumbent LECs must demonstrate that any incremental overhead costs claimed in their cost support are actually new cost incremental to and resulting from the provision of long-term number portability. See the Cost Classification Order.
- (4) Incumbent LECs are required to maintain records that detail both the nature and specific amount of these carrier-specific costs that are directly related to number portability, and those carrier-specific costs that are not directly related to number portability. The information collected and required by the Commission will be used to comply with Section 251 of the Telecommunications Act of 1996.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
