Testing of Certain High Production Volume Chemical Substances; Third Group of Chemical Substances; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; announcement of meeting.

SUMMARY: EPA will hold a public meeting to give members of the public an opportunity to comment on a proposed rule under section 4(a)(1)(B) of the Toxic Substances Control Act (TSCA) entitled “Testing of Certain High Production Volume Chemicals; Third Group of Chemicals.” The proposed rule, when finalized, would require manufacturers, importers, and processors of certain high production volume (HPV) chemical substances to conduct testing to obtain screening level data for health and environmental effects and chemical fate. Opportunity to present oral comment was provided in the proposed rule and in response to that opportunity, a request to present oral comments was received.

DATES: The meeting will be held on September 9, 2010, from 1 p.m. to 4 p.m.

Requests to participate in the meeting must be received on or before September 8, 2010.

To request accommodation of a disability, please contact the person listed under FOR FURTHER INFORMATION CONTACT, preferably at least 10 days prior to the meeting, to give EPA as
much time as possible to process your request.

II. Background

In the *Federal Register* issue of February 25, 2010 (75 FR 8575) (FRL–8805–8), EPA published a proposed rule under TSCA section 4(a)(1)(B) to require manufacturers, importers, and processors of certain HPV chemical substances to conduct testing to obtain screening level data for health and environmental effects and chemical fate. EPA has preliminarily determined that: Each of the 29 chemical substances included in that proposed rule is produced in substantial quantities and that there is or may be substantial human exposure to each of them; there are insufficient data to reasonably determine or predict the effects on health or the environment of the manufacture, distribution in commerce, processing, use, or disposal of the chemical substances or of any combination of these activities; and the testing program proposed is necessary to develop such data. Data developed under the proposed rule, when finalized, will provide critical information about the environmental fate and potential hazards associated with the subject chemical substances. When combined with information about exposure and uses, these data will allow the Agency and others to evaluate potential health and environmental risks and to take appropriate follow-up actions.

In response to the proposed rule, EPA received a request to present oral comment from People for the Ethical Treatment of Animals (PETA). Written comments provided during the comment period for the proposed rule, including those requesting an opportunity for oral comment, are available and can be viewed in the docket under docket ID number EPA–HQ–OPPT–2009–0112.
