

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

Executive Order (EO) 12898 (59 FR 7629 (Feb. 16, 1994)) establishes Federal executive policy on environmental justice. Its main provision directs Federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

EPA has determined that this proposed rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. The proposed revisions implement a previously promulgated health-based Federal standard (the 8-hour ozone NAAQS) that is designed to protect all segments of the general population. As such, they do not adversely affect the health or safety of minority or low income populations and are designed to protect and enhance the health and safety of these and other populations.

K. Determination Under Section 307(d)

Pursuant to section 307(d)(1)(V) of the CAA, the Administrator determines that this action is subject to the provisions of section 307(d). Section 307(d)(1)(V) provides that the provisions of section 307(d) apply to "such other actions as the Administrator may determine."

For the reasons stated in the preamble, title 40, chapter I of the Code of Federal Regulations is proposed to be amended as follows:

PART 51—REQUIREMENTS FOR PREPARATION, ADOPTION, AND SUBMITTAL OF IMPLEMENTATION PLANS

1. The authority citation for part 51 continues to read as follows:

Authority: 23 U.S.C. 101; 42 U.S.C. 7401–7671q.

2. Section 51.905 is amended by revising paragraph (a)(3)(i), and by adding a new paragraph (g) to read as follows:

§ 51.905 How do areas transition from the 1-hour NAAQS to the 8-hour NAAQS and what are the anti-backsliding provisions?

(a) * * *

(3) * * *

(i) Obligations in an approved SIP.

For an area that is designated 8-hour NAAQS attainment/1-hour NAAQS nonattainment, the State may request that obligations under the applicable requirements of § 51.900(f) be shifted to contingency measures, consistent with sections 110(l) and 193 of the CAA, after revocation of the 1-hour NAAQS; however, the State cannot remove the obligations from the SIP. For such areas, the State may request that the nonattainment major NSR provisions that applied based on the area's designation and classification under the 1-hour NAAQS be removed from the SIP on or after the date of revocation of the 1-hour NAAQS and need not be shifted to contingency measures.

* * * * *

(g) What other requirements for the 1-hour standard apply?

(1) The requirements for nonattainment new source review that applied pursuant to sections 172(c)(5), 173, and 182 of the Clean Air Act based on the area's classification under the 1-hour NAAQS continue to be required elements of an approvable implementation plan for any ozone nonattainment area that was designated nonattainment for the 1-hour NAAQS at the time of designation as ozone nonattainment for the 8-hour NAAQS. Notwithstanding the revocation of the 1-hour NAAQS, the designation and classification of the area for the 1-hour standard as provided in 40 CFR Part 81 shall apply for determining the applicable 1-hour NSR obligation for an area. These requirements remain required elements of the implementation plan until such time as the area is redesignated to attainment for the 1997 8-hour attainment area for the ozone NAAQS pursuant to Clean Air Act section 107(d)(3)(E).

(2) Notwithstanding revocation of the 1-hour ozone NAAQS, States with areas designated nonattainment for the 1-hour ozone NAAQS and classified as severe or extreme for that standard as provided in 40 CFR Part 81 remain subject to the obligation to adopt programs under sections 181(b)(4) of the CAA for the 1-hour ozone NAAQS.

3. Section 51.914 is revised to read as follows:

§ 51.914 What new source review requirements apply for ozone nonattainment areas?

(a) The requirements for new source review for the 8-hour ozone standard are located in § 51.165.

(b) For areas designated nonattainment for the 1-hour ozone standard as of the effective date of designation for the 8-hour standard, values for applicability thresholds and offset requirements as required under § 51.165 shall be determined by the 1-hour nonattainment classifications listed for those areas in 40 CFR Part 81, Subpart C. The 1-hour applicability thresholds and offset requirements shall be retained until such time as the area is redesignated to attainment for the 1997 8-hour ozone NAAQS under section 107(d)(3)(E) of the Clean Air Act, at which point the State may request their removal.

4. Appendix S to part 51 is amended by adding section VII. to read as follows:

Appendix S to Part 51—Emission Offset Interpretative Ruling

* * * * *

VII. Anti-Backsliding Measures

1-hour ozone NAAQS nonattainment area new source review.

Any 8-hour ozone nonattainment area that was designated nonattainment for the 1-hour ozone NAAQS at the time of designation for the 8-hour NAAQS must continue to apply new source review requirements consistent with that area's 1-hour classification, as listed in 40 CFR Part 81, Subpart C. These requirements remain applicable until such time as the 8-hour nonattainment area is redesignated to attainment for the 8-hour ozone NAAQS standard under 107(d)(3)(E) of the Clean Air Act.
