The NOI requested public comment from interested persons regarding specific as well as general questions and provided for the submission of comments by September 27, 2010. To date, DOE has received comments dated August 10, 2010 from the Nuclear Energy Institute (NEI), stating that the breadth and number of topics on which comment has been requested will require substantial time and significant effort by nuclear suppliers to amass relevant data, analyses and other information to be considered by DOE. NEI also referred to “the potential amount of the retrospective liability to be borne by individual companies, the varying impact of such liability on companies of vastly different sizes with vastly different revenues, and the wide variety of goods and services supplied and the time over which they are supplied,” as a basis for nuclear suppliers identifying a host of difficult issues related to the administration of any CSC risk pooling program that warrants additional time for nuclear suppliers to provide comments to DOE. For these reasons, NEI requested that the deadline for public comment be extended for an additional thirty (30) days, to October 27, 2010.

DOE has determined that extension of the comment period is appropriate based on the foregoing reasons. An extended comment period also supports DOE’s interest in obtaining detailed and comprehensive commentary from nuclear suppliers and other interested stakeholders. DOE is hereby extending the comment period to October 27, 2010. DOE will consider any comments received by October 27, 2010 and deems any comments received between publication of the NOI and October 27, 2010 to be timely submitted.

Issued in Washington, DC, on August 18, 2010.

Scott Blake Harris,
General Counsel.
