I. Abstract

BIE is seeking renewal of the approval for the information collection conducted under 25 CFR parts 30, 37, 39, 42, 44, and 47 under OMB Control Number 1076-0163. This information collection is necessary to implement Public Law 107-110, No Child Left Behind Act of 2001 (NCLB). The NCLB requires all schools, including BIE-funded schools, to ensure that all children receive a fair, equal, and significant opportunity to obtain a high quality education and reach, at a minimum, proficiency on challenging academic achievement standards and assessments. The BIE is required to monitor programs, gather data, and complete reports for the U.S. Department of Education. BIE relies on schools to prepare required documentation, such as the Annual Report; the School Report Card; Section 1114 Plans; financial budgets; school improvement plans; compliance action plans as a result of monitoring; Title II, Part A reports on highly qualified staff; Title IV, Part A, Safe and Drug Free Schools and Communities reports; competitive sub-grant reports.; Indian School Equalization Programs (ISEP) reports; the Native American Student

Information System (NASIS) reports; and transportation reports. There is no change to the approved burden hours for this information collection.

II. Request for Comments

The BIA requests that you send your comments on this collection to the location listed in the **ADDRESSES** section. Your comments should address: (a) The necessity of the information collection for the proper performance of the agencies, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or conduct, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section during the hours of 9 a.m.-5 p.m., Eastern Time, Monday through Friday except for legal holidays. Before including your address, phone number, e-mail address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While

you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so.

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS), and notice of public hearing.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), the California Environmental Quality Act (CEQA), and Article VII of the Tahoe Regional Planning Compact and Chapter 5 of the Tahoe Regional Planning Agency (TRPA) Code of Ordinances, the Bureau of Reclamation (Reclamation),

California Department of Parks and Recreation (State Parks), and TRPA have made available for public review and comment the draft EIR/EIS for the Upper Truckee River Restoration and Golf Course Reconfiguration Project (Project). Depending on which alternative is selected, the proposed restoration project may include continuing existing golf course use, removal of the entire Lake Tahoe Golf Course, or reconfiguration of the golf course to allow for restoration of the river, to reduce the area of Stream Environment Zone occupied by the golf course, and to allow for establishment of a buffer area between the golf course and the river.

DATES: Submit written comments on the draft EIR/EIS on or before November 4, 2010.

Two public hearings will be held on October 13 and October 27, 2010, starting at 9:30 a.m. in Stateline, Nevada, to receive oral and written comments regarding the project's environmental effects.

FOR FURTHER INFORMATION CONTACT:

Cyndie Walck, State Parks, at 530-581-0925, or Mike Elam, TRPA, and Myrnie Mayville, Reclamation, at 775-588-4547.

SUPPLEMENTARY INFORMATION: The purpose of the project is to improve geomorphic processes, ecological functions, and habitat values of the Upper Truckee River within the study area, helping to reduce the river's discharge of nutrients and sediment that diminish Lake Tahoe's clarity while providing access to public recreation opportunities in Washoe Meadows State Park (SP) and Lake Valley State Recreation Area (SRA).

The 520-acre study area is just north of Meyers and south of the City of South Lake Tahoe, within El Dorado County, California. It includes the southern portion of Washoe Meadows SP, Lake Valley SRA, and small portions of U.S. Forest Service (USFS) and California Tahoe Conservancy (Conservancy) lands, as well as a 1.5-mile reach of the Upper Truckee River.

The four action alternatives (Alternatives 2-5), and the No-Project/No-Action Alternative (Alternative 1) are analyzed in the draft EIR/EIS. For the No Project/No-Action Alternative, Alternative 1, the river restoration and changes to the golf course would not be implemented. This alternative represents a projection of reasonably foreseeable future conditions that could occur if no project actions were implemented. Alternative 2 would involve restoration of the Upper Truckee River with a reconfigured 18-hole regulation golf course. Alternative 3 would involve river restoration, providing a reduced-play golf course. Alternative 4 would use a combination of hard and soft stabilization to keep the river in its present configuration and includes only minor changes to the existing golf course. Alternative 5 would involve decommissioning and removing the 18-hole regulation golf course to restore all or a portion of the golf course landscape to meadow and riparian habitat.
