SUPPLEMENTARY INFORMATION: Title: New Markets Tax Credit (NMTC) Program—Allocation Application. OMB Number: 1559–0016. Abstract: Title I, subtitle C, section 121 of the Community Renewal Tax Relief Act of 2000 (the Act), as enacted in the Consolidated Appropriations Act, 2001 (Pub. L. 106–554, December 21, 2000), amended the Internal Revenue Code (IRC) by adding IRC § 45D and created the NMTC Program. The Department of the Treasury, through the CDFI Fund, administers the NMTC Program, which provides an incentive to investors in the form of tax credits over seven years that stimulates private investment capital that, in turn, facilitates economic and community development in low-income communities. In order to receive the tax credit, taxpayers make Qualified Equity Investments (QEIs) in Community Development Entities (CDEs); substantially all of the QEI proceeds must in turn be used by the CDE to provide investments in businesses and real estate developments in low-income communities.

The tax credit provided to the investor totals 39 percent of the amount of the investment and is claimed over a seven-year period. In each of the first three years, the investor receives a credit equal to five percent of the total amount paid for the stock or capital interest at the time of purchase. For the final four years, the value of the credit is six percent annually. Investors may not redeem their investments in CDEs prior to the conclusion of the seven-year period without forfeiting any credit amounts they have received.
The CDFI Fund is responsible for certifying organizations as CDEs, and administering the competitive allocation of tax credit authority to CDEs, which it does through annual allocation rounds. As part of the award selection process, all CDEs are required to prepare and submit the Application, which includes four key sections (Business Strategy; Community Impact; Management Capacity; and Capitalization Strategy). During the first phase of the review process, each Application is rated and scored independently by three different readers.

In scoring each Application, reviewers rate each of the four evaluation sections as follows: Weak (0–5 points); Limited (6–10 points); Average (11–15 points); Good (16–20 points); and Excellent (21–25 points). Applications can be awarded up to ten additional “priority” points for demonstrating a track record of serving disadvantaged business and communities and/or for committing to make investments in projects owned by unrelated parties. If one or more of the three readers provides an anomalous score, and it is determined that such an anomaly would affect the outcome of the final awardee pool, then a fourth reviewer will score the Application, and the anomalous score would likely be dropped.

Once all of the scores have been finalized, including anomaly score adjustments, those Applications that meet minimum aggregate scoring thresholds in each of the four major review sections (as well as a minimum overall scoring threshold) are eligible to be considered for an allocation. They are reviewed by an internal CDFI Fund panel, with a Lead Panelist making an award recommendation to a Panel Manager, and the Panel Manager making an award recommendation to the Selecting Official. If the Selecting Official’s award recommendation varies significantly from the recommendation of the Panel Manager, then a Reviewing Official makes the final award determination. Awardees are made, in descending order of the final rank score, until the available allocation authority for a given round is fully expended.
