The public closure area comprises 9,445 acres, more or less.

The closure and temporary restrictions are necessary to provide a safe environment for the participants of the Burning Man Festival and to members of the public visiting the Black Rock Desert and to protect public land resources by addressing law enforcement and public safety concerns associated with the Burning Man Festival. The Burning Man Festival is held on public lands administered by the Bureau of Land Management. It is expected to attract approximately 48,000 participants to a remote rural area, far from urban infrastructure and support, including law enforcement, public safety, transportation, and communication services. During the festival the associated city becomes the tenth largest metropolitan area in Nevada. This event is authorized on public lands under Special Recreation Permit #NV-025-06-01.

The vast majority of Burning Man Festival participants do not cause any problems for the event organizers or the BLM. Actions by a few participants at previous events have resulted in law enforcement and public safety incidents similar to those observed in urban areas of similar size. Incidents that have required BLM law enforcement action in prior years include the following: Aircraft crashes; motor vehicle accidents with injuries within and outside the event (a temporary fence is installed around the event perimeter); fighting; sexual assaults; assaults on law enforcement officers; reckless or threatening behavior; crimes against property; crowd control issues; issues associated with possession and use of alcoholic beverages; persons acting in a manner where they may pose a danger to themselves or to others; possession, use, and distribution of controlled substances; and increased use of public lands outside the event perimeter.

The Burning Man Festival takes place within Pershing County, a rural county with a small population and a small Sheriff's Department. The county has

limited ability to provide additional law enforcement officers to work at the Festival. The temporary closure and the temporary restrictions are necessary to enable BLM law enforcement personnel to provide for public safety and protect the environment on public lands, as well as support state and local law enforcement agencies with enforcement of existing laws.

A temporary closure and restriction order, under the authority of 43 CFR 8364.1, is used because it is more appropriate than establishing Supplementary Rules. A temporary closure and restriction order is specifically tailored to the time frame and restrictions on uses or activities that are necessary to provide a safe environment for the public and for participants in the Burning Man Festival, and protect public land resources, while avoiding imposing restrictions that may not be necessary during the remainder of the year.

The BLM will post information signs about the temporary restrictions at main entry points around the area. This temporary restriction order also will be posted in the BLM Winnemucca District Office. Maps of the affected area and other documents associated with these temporary restrictions are available at the Winnemucca District Office at the address above.

Under the authority of Section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733 (a)), 43 CFR 8360.0–7, and 43 CFR 8364.1, the BLM will enforce the following closures and restrictions within and adjacent to the Burning Man Festival on the Black Rock Desert playa:

I. Event Area—Between August 27, 2010, and September 17, 2010 Inclusive

A. Aircraft Landing

The event area is closed to aircraft landing, taking off, or taxiing. Aircraft is defined in Title 18 U.S.C., section 31 (a)(1) and includes lighter-than-air craft and ultra-light craft. The following exceptions apply:

1. Aircraft operations conducted through the authorized event landing strip and such ultra-light and helicopter take-off and landing areas designated for Burning Man event staff and participants, law enforcement, and emergency medical services.

2. Helicopters providing emergency medical services may land in other locations when required for medical incidents.

3. Landings or take-offs of lighter-than-air craft previously approved by the BLM authorized officer.

B. Alcohol

1. Possession of an open container of an alcoholic beverage by the driver or operator of any motorized vehicle, whether or not the vehicle is in motion is prohibited.

2. Possession of alcohol by minors.

- (a) The following are prohibited:

- (1) Consumption or possession of any alcoholic beverage by a person under 21 years of age on public lands.

- (2) Selling, offering to sell, or otherwise furnishing or supplying any alcoholic beverage to a person under 21 years of age on public lands.

- (b) This section does not apply to the selling, handling, serving or transporting of alcoholic beverages by a person in the course of his lawful employment by a licensed manufacturer, wholesaler or retailer of alcoholic beverages.

3. Operation of a motor vehicle while under the influence.

- (a) Title 43 CFR 8341.1(f)3 prohibits the operation of an off-road motor vehicle on public land while under the influence of alcohol, narcotics, or dangerous drugs.

- (b) In addition to the prohibition found in 43 CFR 8341.1(f)3, it is prohibited for any person to operate or be in actual physical control of a motor vehicle while:

- (1) The operator is under the combined influence of alcohol, a drug, or drugs to a degree that renders the operator incapable of safe operation of that vehicle; or

- (2) The alcohol concentration in the operator's blood or breath is 0.08 grams or more of alcohol per 100 milliliters of blood or 0.08 grams or more of alcohol per 210 liters of breath.

- (1) At the request or direction of any law enforcement officer authorized by the Department of the Interior to enforce this closure and restriction order, who has probable cause to believe that an operator of a motor vehicle has violated a provision of paragraph (a) or (b) of this section, the operator shall submit to one or more tests of the blood, breath, saliva, or urine for the purpose of determining blood alcohol and drug content.

- (2) Refusal by an operator to submit to a test is prohibited and proof of refusal may be admissible in any related judicial proceeding.

- (3) Any test or tests for the presence of alcohol and drugs shall be determined by and administered at the direction of an authorized person.

- (4) Any test shall be conducted by using accepted scientific methods and equipment of proven accuracy and reliability operated by personnel certified in its use.

(d) Presumptive levels:

- (1) The results of chemical or other quantitative tests are intended to supplement the elements of probable cause used as the basis for the arrest of an operator charged with a violation of paragraph (a) of this section. If the alcohol concentration in the operator's blood or breath at the time of testing is less than alcohol concentrations specified in paragraph (b)(2) of this section, this fact does not give rise to any presumption that the operator is or is not under the influence of alcohol.

- (2) The provisions of paragraph (d)(1) of this section are not intended to limit the introduction of any other competent evidence bearing upon the question of whether the operator, at the time of the alleged violation, was under the influence of alcohol, a drug or multiple drugs, or any combination thereof.

4. Definitions:

- (a) Open container: Any bottle, can, or other container that contains an alcoholic beverage, if that container does not have a closed top or the lid for which the seal has been broken. If a container has been opened one or more times and its lid or top has been replaced, that container is an open container.

This includes but is not limited to containers in a cup holder or rack adjacent to the driver or operator, containers on a vehicle floor next to the driver or operator, and containers on a seat or console area next to a driver or operator.
