Title: Weather Radio Transmitter Grant Program.

OMB Control Number: 0572-0124.

Summary of Collection: Under the authorization of Public Law 106-387 (FY 2001 Appropriations Act), made approximately \$5 million in grant funds available to facilitate the expansion of the National Oceanic and Atmospheric Administration's (NOAA) Weather Radio and Alert System into rural areas that are not covered or poorly covered. The National Weather Service can typically provide warnings of specific weather dangers up to fifteen minutes prior to the event. At present, many rural areas lack NOAA Weather Radio coverage. The grant funds will be processed on a first-come basis until the appropriation is used in its entirety.

Need and Use of the Information: RUS will use the information from the submission to determine the following: (1) That adequate coverage in the area does not already exist and that the proposed coverage will meet the needs of the community; (2) that design requirements are met; and (3) that the funds needed to complete the project are adequate based on the grant and the matching portion from the applicant.
