Date	Location	Contact number
October 8, 2010 .....	MSHA National Office, 1100 Wilson Boulevard, 25th Floor Conference Room, Arlington, VA 22209.	(202) 693–9440
October 12, 2010 .....	Embassy Suites Sacramento-Riverwalk Promenade, 100 Capitol Mall, Sacramento, CA 95814.	(916) 326–5000

MSHA has reviewed a number of guidelines for safety and health management programs, including:

- The Occupational Safety and Health Administration's (OSHA's) Voluntary Protection Program and its Safety and Health Program Management Guidelines;
- The American National Standards Institute's (ANSI's) and American Industrial Hygiene Association's (AIHA's) ANSI/AIHA's Z10–2005, Occupational Health and Safety Management Systems;
- The International Standards Organization's (ISO's) ISO 9001:2008 (E), Quality management systems—Requirements; and
- The British Standards Institution's (BSI's) BS OHSAS 18001:2007, Occupational Health and Safety Assessment Series, Occupational health and safety management systems—Requirements.

The Guidelines reveal that the components of effective safety and health management programs generally include:

1. Management Commitment.
2. Worker Involvement.
3. Hazard Identification, including workplace inspections for violations of mandatory health and safety standards.
4. Hazard Prevention and Control.
5. Safety and Health Training.
6. Program Evaluation.

Year after year, many companies experience low injury and illness rates and low violation rates. For these companies, preventing harm to their workers is more than compliance with safety and health requirements; it reflects the embodiment of a culture of safety—from the CEO to the worker to the contractor. This culture of safety derives from a commitment to a systematic, effective, comprehensive safety and health management program, implemented with the full participation of all workers. MSHA understands that many companies have developed and implemented effective safety and health management programs. At the meetings, you will hear about some of these

programs. The Agency is interested in receiving comments on all aspects of safety and health management programs.

MSHA will accept written comments and information for the record from any interested party, including those not presenting oral statements.

Dated: September 2, 2010.
