SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Commercial Service (CS) is mandated by Congress to help U.S. businesses, particularly small and

medium-sized companies, export their products and services to global markets. Additionally, the CS plays a leading role in achieving the President's National Export Initiative and doubling exports within five years. To achieve its mission, the CS provides U.S. businesses with a range of export assistance services and resources including export counseling from one of our domestic Export Assistance Centers, educational webinars and seminars, an export-focused Web site (<http://www.export.gov>), a trade-related help line (1-800-USA-TRAD(E)), international industry research, international business partner matchmaking services and basic due diligence services on potential international partners.

The CS relies on client feedback to guide the development of services to meet client's needs and to improve the effectiveness of its export assistance services. The CS uses an Annual Customer Satisfaction Survey to measure client's overall satisfaction with the full array of services and experiences they have had with the CS on an annual basis. The survey specifically addresses: Client service principles, export assistance services and business practices.

The Annual Customer Satisfaction Survey results enable the CS to prioritize the allocation of time, budget and resources to improve the export assistance services provided to U.S. companies. Without this information, the CS is unable to systematically determine the actual and relative levels of performance for attributes, identify the drivers or determinants of overall satisfaction, and provide clear, actionable insights for managerial intervention.

II. Method of Collection

The survey is deployed to a randomly selected sample of CS clients via an e-mail message containing a link to a web-enabled questionnaire. Two reminder messages are sent as needed to encourage customers to complete the questionnaire.
