Proposal to approve under OMB delegated authority the extension for three years, with revision, of the following report:

Agency form number: FR 2248.
OMB control number: 7100–0005.
Frequency: Monthly, Quarterly, and Semi-annually.
Reporters: Domestic finance companies and mortgage companies.
Estimated annual reporting hours: 350 hours.
Estimated average hours per response: Monthly, 20 minutes; Quarterly, 30 minutes; Semi-annually, 10 minutes.
Number of respondents: 70.

General description of report: This information collection is authorized pursuant the Federal Reserve Act (12 U.S.C. 225(a)). Obligation to respond to this information collection is voluntary. Individual respondent data are confidential under section (b)(4) of the Freedom of Information Act (5 U.S.C. 552).

Abstract: The FR 2248 is collected monthly as of the last calendar day of the month from a stratified sample of finance companies. Each monthly report collects balance sheet data on major categories of consumer and business credit receivables and on major short-term liabilities. For quarter-end months (March, June, September, and December), additional asset and liability items are collected to provide a full balance sheet. A supplemental section collects data on securitized assets. The data are used to construct universe estimates of finance company holdings, which are published in the monthly statistical releases Finance Companies (G.20) and Consumer Credit (G.19), in the quarterly statistical release Flow of Funds Accounts of the United States (Z.1), and in the Federal Reserve Bulletin (Tables 1.51, 1.52, and 1.55).

Current Actions: The Federal Reserve proposes to revise the FR 2248 reporting form by: (1) Revising the reporting frequency for the breakout of 1–4 family real estate loans from quarterly to monthly, (2) adding data items in the liability and equity capital section of the report, (3) reordering the asset and liability data items from most liquid to least liquid, (4) adding two columns to create a clearer distinction among broad balance sheet data items, which are collected quarterly, detailed loan and lease data items, which are collected monthly, and the off-balance-sheet securitization data items; and (5) deleting the supplemental data items on the sale of receivables. The proposed changes to the FR 2248 would be effective with the December 31, 2010, report date.

Proposal to approve under OMB delegated authority the implementation of the following report:

Agency form number: FR 3033s.
OMB control number: 7100–0277.
Frequency: One-time.
Reporters: Finance companies and mortgage companies.
Estimated annual reporting hours: 2,700 hours.
Estimated average hours per response: 1.5 hours.
Number of respondents: 1,800.

General description of report: This information collection is authorized pursuant the Federal Reserve Act (12 U.S.C. 225a, 263, and 355–59). Obligation to respond to this information collection is voluntary. Individual respondent data are confidential under section (b)(4) of the Freedom of Information Act (5 U.S.C. 552).

Abstract: This information collection is a two-stage survey of finance and mortgage companies. The first stage is a simple questionnaire (FR 3033p) that is sent to all known domestic finance and mortgage companies and that asks for information about each company’s total net assets, areas of specialization, and other characteristics. From the questionnaire respondents, the Federal Reserve draws a stratified random sample of finance and mortgage companies for the second stage, the survey itself (FR 3033s). The survey requests detailed information from both sides of the respondents’ balance sheets. The Federal Reserve Board initiates data collection and analysis, and staff at the Federal Reserve Banks follow up on data quality issues, collect data from late FR 3033s, and resolve other outstanding questions.

Current Actions: The first stage of this survey, the Census of Finance Companies (FR 3033p), was conducted in April 2010. The FR 3033p was sent to all companies that met the criteria developed to identify the potential universe of domestic finance companies. From the universe of finance companies as determined by the FR 3033p, a stratified random sample of 3,000 finance companies would be drawn for the FR 3033s. The survey would be sent in February 2011 and collect detailed information, as of December 31, 2010, from both sides of the respondents’ balance sheets, as well as companies’ geographic scope of operations and servicing activities. The data collected from this survey would be used for two purposes: To benchmark the consumer and business finance series collected on the monthly Domestic Finance Company Report of Consolidated Assets and Liabilities (FR 2248; OMB No. 7100–0005) and to increase the Federal Reserve’s understanding of an important part of the financial system.

The Federal Reserve proposes to revise the FR 3033s by: (1) Increasing the respondent panel size from 750 to 3,000, (2) adding a section to solicit information on servicing activities and geographic distribution of the company’s activities, (3) changing the survey title, (4) revising the reporting form by reordering the asset and liability data items from most liquid to least liquid and asking for additional detail on assets and liabilities, and (5) adding two columns to create a clearer distinction among the broad balance sheet data items, detailed loan and lease data items, and off-balance-sheet securitization data items.

Jennifer J. Johnson,
Secretary of the Board.
