

Protected Resources Division, NMFS, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232-1274. Comments may also be sent via fax to 503-230-5441 or by e-mail to nmfs.nwr.apps@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Garth Griffin, Portland, OR (ph.: 503-231-2005, Fax: 503-230-5441, e-mail: Garth.Griffin@noaa.gov). Permit application instructions are available from the address above, or online at apps.nmfs.noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): threatened Puget Sound (PS).

Steelhead (*O. mykiss*): threatened PS, threatened middle Columbia River (MCR).

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222-226). NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

Permit 15549

The Columbia River Inter-Tribal Fish Commission (CRITFC) is seeking a five-year permit to expand on and extend work previously conducted under Permit 1532. They wish to take juvenile steelhead during the course of research designed to determine the fishes' freshwater movements and how those movements are affected by the area's substantially altered hydrograph. They would also collect baseline information on stock status. The research would take place in Satus, Ahtanum, Naches, and Toppenish Creeks, Washington.

The fish would be captured using screw traps and backpack

electrofishing equipment. They would then be anesthetized and measured. Some would be tissue-sampled and some would receive passive integrated transponder (PIT) tags. The information gathered would be used to determine the fishes' movements and abundance and monitor the ongoing status of the various MCR steelhead populations in the Yakima River subbasin. The research would benefit the fish by helping managers determine the effectiveness of current recovery measures and design new ones where needed. The CRITFC does not plan to kill any of the fish being captured, but a few may die as an unintentional result of the research

Permit 15582

The City of Bothell (COB) in northwestern Washington State is seeking a new 5-year permit to take juvenile PS Chinook and steelhead while conducting research designed to provide information on the condition of fish populations in the waters around the city. The purpose of the research is to provide information that will help the COB prioritize and direct habitat restoration actions. The information gathered by this research would benefit the fish by helping the COB (a) protect important salmonid habitat and (b) measure its compliance with their Federal National Pollutant Discharge Elimination System permit and the Clean Water Act. The COB is seeking to capture fish (using backpack electrofishing equipment), anesthetize them, measure them, allow them to recover from the anesthesia, and release them. No listed fish are expected to die during these activities.

Permit 15695

The Western Washington University (WWU) is seeking a new 3-year permit to take juvenile PS Chinook and steelhead while conducting research designed to (1) investigate the effects of hypoxia (decreased levels of oxygen in water) on fish abundance and distribution; (2) determine spatial and temporal variations in hypoxia in the Nooksack River basin; and (3) investigate the dominant mechanisms causing hypoxia in northwestern streams. The research is designed to provide information about the life history and habitat requirements for suckers and threatened salmonids and thus would benefit listed fish by enhancing the effectiveness of watershed management and conservation policies. The WWU is seeking to capture fish (using minnow traps), identify and enumerate them,

and release them. No listed fish are expected to die during these activities.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the applications, associated documents, and comments submitted to determine whether the applications meet the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period. NMFS will publish notice of its final action in the **Federal Register**.

Dated: September 13, 2010.

Therese Conant,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Foreign-Trade Zones Board

[Order No. 1707]

Expansion of Foreign-Trade Zone 157, Casper, WY

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Casper/Natrona County International Airport, grantee of Foreign-Trade Zone 157, submitted an application to the Board for authority to expand FTZ 157 to include a site in Casper, Wyoming, within the Casper Customs and Border Protection port of entry (FTZ Docket 23-2010, filed March 29, 2010);

Whereas, notice inviting public comment has been given in the **Federal Register** (75 FR 17125-17126, 04/05/2010) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that the proposal is in the public interest;

Now, Therefore, the Board hereby orders:

The application to expand FTZ 157 is approved, subject to the FTZ Act and the Board's regulations, including Section 400.28, and further subject to the Board's standard 2,000-acre activation limit.

Signed at Washington, DC, this 3rd day of September 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest

Andrew McGilvray,

Executive Secretary.

[A-570-898]

Chlorinated Isocyanurates From the People's Republic of China: Notice of Extension of Time Limit for the Final Results of the 2008-2009 Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* September 17, 2010.

FOR FURTHER INFORMATION CONTACT: Brandon Petelin or Charles Riggle, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-8173 or (202) 482-0650, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 14, 2010, the Department of Commerce ("Department") published its preliminary results of review of the antidumping order on chlorinated isocyanurates from the People's Republic of China ("PRC").¹ This review covers the period June 1, 2008, through May 31, 2009. The final results of review are currently due no later than September 11, 2010.

Extension of Time Limit for Final Results of Review

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), the Department shall issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act

¹ See *Chlorinated Isocyanurates from the People's Republic of China: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review*, 75 FR 27302 (May 14, 2010) ("*Preliminary Results*").

allows the Department to extend the time period to a maximum of 180 days. Completion of the final results of this review within the 120-day period is not practicable because the Department needs additional time to analyze and address complicated surrogate value issues, including the most appropriate methodology for valuing labor, for the final results. Because it is not practicable to complete this review within the time specified under the Act, we are extending the time period for issuing the final results of the administrative review by 30 days in accordance with section 751(a)(3)(A) of the Act. Therefore, the final results will be due Monday, October 11, 2010, which is 150 days from publication of the preliminary results. However, October 11, 2010, falls on a federal holiday, and it is the Department's long-standing practice to issue a determination on the next business day when the statutory deadline falls on a federal holiday.² Accordingly, the deadline for completion of the preliminary results of the review is now no later than October 12, 2010.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: September 10, 2010.

Susan H. Kuhbach,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Certain Frozen Warmwater Shrimp From the People's Republic of China: Extension of Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("Department") is extending the time limit for the preliminary results of the administrative review of certain frozen warmwater shrimp from the People's Republic of China ("PRC"). The review covers the period February 1, 2009, through January 31, 2010.

² See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

DATES: *Effective Date:* September 17, 2010.

FOR FURTHER INFORMATION CONTACT: Kabir Archuletta, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-2593.

Background

On April 9, 2010, the Department published in the **Federal Register** a notice of initiation of the administrative reviews of the antidumping duty orders on certain frozen shrimp from the Socialist Republic of Vietnam and the PRC. See *Notice of Initiation of Administrative Reviews and Requests for Revocation in Part of the Antidumping Duty Orders on Certain Frozen Warmwater Shrimp From the Socialist Republic of Vietnam and the People's Republic of China*, 75 FR 18154 (April 9, 2010). The preliminary results of the reviews are currently due no later than October 31, 2010.

Statutory Time Limits

In antidumping duty administrative reviews, section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of the administrative review on certain frozen warmwater shrimp from the PRC within the original time limit because the Department requires additional time to analyze questionnaire responses, issue supplemental questionnaires, and to evaluate surrogate value submissions for purposes of these preliminary results.

Therefore, the Department is extending the time limit for completion of the preliminary results of the administrative review by 120 days. The preliminary results will now be due no later than February 28, 2011. The final results continue to be due 120 days after
