

no less than the same measure of protection afforded the miners of such mine by such standard; or (2) that the application of such standard to such mine will result in a diminution of safety to the miners in such mine. In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

## II. Petitions for Modification

*Docket Number:* M-2010-033-C.

*Petitioner:* Matrix Energy, LLC, Mine No. 1, MSHA I.D. No. 15-18575; Coalburg Enterprises, Inc., Mine No. 8, MSHA I.D. No. 15-19494; and Eagle Coal Company, Inc., Mine No. 22, MSHA I.D. No. 15-16663 and Mine No. 24, MSHA I.D. No. 15-19296, Rt. 292, P.O. Box 190, Lovely, Kentucky 41231. All of these mines are located in Martin County, Kentucky.

*Regulation Affected:* 30 CFR 75.208 (Warning devices).

*Modification Request:* The petitioner requests a modification of the existing standard to that portion of the standard requiring the end of permanent roof support to be posted with readily visible warning. The petitioner states that: (1) A greater degree of safety is provided for the miner by hanging the reflector on the second row, rather than on the first row of permanent support outby unsupported roof; and (2) hanging the reflector on the first row would subject a portion of the miner's body inby supported roof, which could result in a serious injury. Therefore, the petitioner requests to hang the reflector on the second row of permanent support outby unsupported roof. The petitioner asserts that the proposed alternative method will at all times comply with the safety standard and guarantee greater protection than the existing standard.

*Docket Number:* M-2010-034-C.

*Petitioner:* Four O Mining Corporation, P.O. Box 148, Vansant, Virginia 24656.

*Mine:* No. 10 Mine, MSHA I.D. No. 44-07217, located in Dickenson County, Virginia.

*Regulation Affected:* 30 CFR 75.1101-2 (Installation of deluge-type sprays).

*Modification Request:* The petitioner requests a modification of the existing standard to permit an alternative method of compliance in lieu of providing a fire suppression system on the belt drive, as it pertains to 50 foot coverage of fire suppression. The petitioner requests this modification because of the Fairchild continuous miner and the rapid haul that travels up and down from near the belt drive to the end. To ensure safety, the petitioner proposes to put one man with a CO

Detector with a 1-1/2 inch fire hose with a firefighting nozzle hooked up at all times until the 50 foot distance is established from the belt drive to the rapid haul. The petitioner asserts that the proposed alternative method will provide a measure of protection equal to or greater than that of the existing standard.

Dated: September 14, 2010.

## NATIONAL SCIENCE FOUNDATION

### Proposal Review Panel for Physics; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

*Name:* University of Notre Dame Site Visit in Physics (1208).

*Date and Time:* Tuesday, October 19, 2010; 8 a.m.-6 p.m.

Wednesday, October 20, 2010: 8 a.m.-4 p.m.

*Place:* University of Notre Dame, Indiana 46556.

*Type of Meeting:* Partially Closed.

*Contact Person:* Dr. Kathleen McCloud, Program Director for Physics Education and Disciplinary Research, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: (703) 292-8236.

*Purpose of Meeting:* To provide an oversight report on progress of research performed under a Cooperative Agreement with the National Science Foundation.

### Agenda

*Tuesday, October 19, 2010*

Open 8:15-10 JINA science overview talk and discussion.

Closed 10:30-10:45 Executive Session.

Open 10:45-12:15 JINA astrophysics highlights.

Open 2-3 JINA nuclear Physics experiments.

Closed 3:50-4:30 Executive Session.

Open 4:30-6:30 Student Poster Session.

*Wednesday, October 20, 2010*

Closed 8:30-9:30 Executive Session.

Open 10-11 Administrators and JINA Discussions.

Closed 11-12 Executive Session and writing session.

Open 1:30-2 Administrators and JINA discussions.

Closed 2:30-4 Writing session and Close out.

*Reason for Closing:* The proposal contains proprietary or confidential material including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552(b)(c) and (6) of the Government in the Sunshine Act.

Dated: September 15, 2010.

**Susanne Bolton,**

*Committee Management Officer.*

## NATIONAL SCIENCE FOUNDATION

### Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

**AGENCY:** National Science Foundation

**ACTION:** Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

**SUMMARY:** The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 20, 2010. This application may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

**FOR FURTHER INFORMATION CONTACT:** Nadene G. Kennedy at the above address or (703) 292-7405.

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and

designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. *Applicant*—Permit Application No. 2011–016, Paul Ponganis, Center for Marine Biotechnology and Biomedicine, Scripps Institution of Oceanography, University of California, San Diego, La Jolla, CA 92093–0204.

#### Activity for Which Permit Is Requested

Take, Enter Antarctic Specially Protected Areas, and Import into the USA. The applicant plans to study the diving physiology and behavior of emperor penguins at sea. Physiological responses underlie the dive capacity and the ability to successfully forage at depth. Heart rate, in particular, is key to the management of oxygen stores at seas, and the ability of birds to perform repetitive deep dives. The will deploy electro-cardiogram recorders and dive behavior recorders on birds making foraging trips to sea from Cape Washington.

In addition, censusing of birds will be conducted to continue the long term population monitoring of the Ross Sea emperor penguin population (day visits to Cape Crozier, ASPA 124 and Beaufort Island ASPA 105 colonies, aerial censuses of Franklin Island, Cape Colbeck, Coulman Island and Cape Roget, and photo/counting census at Cape Washington, including abandoned egg and chick carcass counts, and assessment of check health.)

Leopard seal research assesses the impact of leopard seals on the emperor colony as well as the hunting strategies of leopard seals. Leopard seals will be sedated for weighing and attachment of a backpack camera and radio transmitter. The camera and radio transmitter will be removed after about a week.

#### Location

Cape Crozier (ASPA 124), Beaufort Island (ASPA 105), and Cape Washington.

#### Dates

October 1, 2010 to December 31, 2011.

**Nadene G. Kennedy,**

*Permit Officer, Office of Polar Programs.*

The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. *Applicant*—Permit Application No. 2011–017. Mahlon C. Kennicutt, II, Department of Oceanography, Rm. 608 Eller Oceanography and Meteorology Building, 3146 TAMU, College Station, TX 778843–3146.

#### Activity for Which Permit Is Requested

Take, Enter Antarctic Specially Protected Areas, and Import into the USA. The applicant plans to center Cape Royds (ASPA 157), Bratina Island, Arrival Heights (ASPA 122) and Hut Point (ASPA 158) as part of an environmental study. Cape Royds and

Bratina Island will be samples as two reference controls sites for their study of the temporal and spatial scales of various types of disturbances in and around McMurdo Station, Antarctica. The sampling locations at Cape Royds will be situated to avoid disturbance to biota in the area. The other sites, Arrival Heights and Hut Point, have been sampled in past field seasons and are slated to be sampled as part of the ongoing environmental monitoring program.

#### Location

Cape Royds (ASPA 157), Bratina Island, Arrival Heights (ASPA 122) and Hut Point (ASPA 158).

#### Dates

November 12, 2010 to December 31, 2010.

## NUCLEAR REGULATORY COMMISSION

[NRC–2010–0298; Docket No. 50–346]

### First Energy Nuclear Operating Company; Notice of Receipt and Availability of Application for Renewal of Davis Besse Nuclear Power Station, Unit 1, Facility Operating License No. NPF–003 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or Commission) has received an application, dated August 30, 2010, from FirstEnergy Nuclear Operating Company, filed pursuant to Section 104(b) of the Atomic Energy Act of 1954, as amended, and Title 10 of the Code of Federal Regulations Part 54 (10 CFR part 54), to renew the operating license for the Davis-Besse Nuclear Power Station (DBNPS), Unit 1. Renewal of the license would authorize the applicant to operate the facility for an additional 20-year period beyond the period specified in the current operating license. The current operating license for DBNPS, Unit 1, NPF–003, expires on April 17, 2017. DBNPS, Unit 1, is a Pressurized Water Reactor designed by Babcock & Wilcox that is located near Toledo, Ohio. The acceptability of the tendered application for docketing, and other matters including an opportunity to request a hearing, will be the subject of subsequent **Federal Register** notices.

Copies of the application are available to the public at the Commission's Public Document Room (PDR), located at One
