

no less than the same measure of protection afforded the miners of such mine by such standard; or (2) that the application of such standard to such mine will result in a diminution of safety to the miners in such mine. In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petitions for Modification

Docket Number: M-2010-033-C.

Petitioner: Matrix Energy, LLC, Mine No. 1, MSHA I.D. No. 15-18575; Coalburg Enterprises, Inc., Mine No. 8, MSHA I.D. No. 15-19494; and Eagle Coal Company, Inc., Mine No. 22, MSHA I.D. No. 15-16663 and Mine No. 24, MSHA I.D. No. 15-19296, Rt. 292, P.O. Box 190, Lovely, Kentucky 41231. All of these mines are located in Martin County, Kentucky.

Regulation Affected: 30 CFR 75.208 (Warning devices).

Modification Request: The petitioner requests a modification of the existing standard to that portion of the standard requiring the end of permanent roof support to be posted with readily visible warning. The petitioner states that: (1) A greater degree of safety is provided for the miner by hanging the reflector on the second row, rather than on the first row of permanent support outby unsupported roof; and (2) hanging the reflector on the first row would subject a portion of the miner's body inby supported roof, which could result in a serious injury. Therefore, the petitioner requests to hang the reflector on the second row of permanent support outby unsupported roof. The petitioner asserts that the proposed alternative method will at all times comply with the safety standard and guarantee greater protection than the existing standard.

Docket Number: M-2010-034-C.

Petitioner: Four O Mining Corporation, P.O. Box 148, Vansant, Virginia 24656.

Mine: No. 10 Mine, MSHA I.D. No. 44-07217, located in Dickenson County, Virginia.

Regulation Affected: 30 CFR 75.1101-2 (Installation of deluge-type sprays).

Modification Request: The petitioner requests a modification of the existing standard to permit an alternative method of compliance in lieu of providing a fire suppression system on the belt drive, as it pertains to 50 foot coverage of fire suppression. The petitioner requests this modification because of the Fairchild continuous miner and the rapid haul that travels up and down from near the belt drive to the end. To ensure safety, the petitioner proposes to put one man with a CO

Detector with a 1-1/2 inch fire hose with a firefighting nozzle hooked up at all times until the 50 foot distance is established from the belt drive to the rapid haul. The petitioner asserts that the proposed alternative method will provide a measure of protection equal to or greater than that of the existing standard.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 20, 2010. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and
