project is considered necessary to achieve a transportation objective identified in Pinal County’s 2008 Regionally Significant Routes for Safety and Mobility. The project would address current and future transportation needs in an area that currently exceeds existing road capacity and is expected to continue to worsen with the projected increase in traffic demand associated with regional growth.

The proposed project evaluation will include, but not be limited to, potential impacts to adopted local and regional land use plans, Tribal lands, the existing and proposed Maricopa, Pinal, and Pima County regional transportation network, Central Arizona Project canals, railroads, residential and commercial development, cultural resources, Threatened and Endangered species, jurisdictional waters of the United States, air and noise quality, hazardous materials, and secondary and cumulative impacts. A full range of reasonable alternatives will be evaluated, including taking no action, using alternative transportation modes, making transportation system management improvements, a combination of arterial and freeway improvements, a new freeway, and combinations of these alternatives.

The EIS will conform to the environmental review process established in Section 6002 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU). The Section 6002 environmental review process requires the following activities: the identification and invitation of cooperating and participating agencies; the development of a coordination plan and management plan; and provision of opportunities for additional agency and public comment on the project’s purpose and need, alternatives and methodologies for assessing alternatives. Additionally, the public hearing following the release of the draft EIS will also be provided. Public notice advertisements and direct mailings will notify interested parties of the time and place of public meetings and public hearing. A formal agency scoping meeting is planned between federal, state, city, county, and Tribal stakeholders.

To ensure that the full range of issues related to this proposed action is addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments, suggestions, or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program No. 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: September 10, 2010.

Kenneth H. Davis,
Senior Engineering Manager for Operations, Federal Highway Administration, Arizona Division Office, Phoenix, Arizona.

Federal Aviation Administration

[Summary Notice No. PE–2010–41]

Petitions for Exemption; Summary of Petitions Received

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received.

SUMMARY: This notice contains a summary of a petition seeking relief from specified requirements of 14 CFR. The purpose of this notice is to improve the public’s awareness of, and participation in, this aspect of FAA’s regulatory activities. Neither publication of this notice nor the inclusion or omission of information in this summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before October 12, 2010.

ADDRESSES: You may send comments identified by Docket Number FAA–2010–0287 using any of the following methods:

- Government-wide rulemaking Web site: Go to http://www.regulations.gov and follow the instructions for sending your comments electronically.
- Mail: Send comments to the Docket Management Facility: U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12–140, Washington, DC 20590.
- Fax: Fax comments to the Docket Management Facility at 202–493–2251.
- Hand Delivery: Bring comments to the Docket Management Facility in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For more information on the rulemaking process, see the SUPPLEMENTARY INFORMATION section of this document.

Privacy: We will post all comments we receive, without change, to http://www.regulations.gov, including any personal information you provide. Using the search function of our docket Web site, anyone can find and read the comments received into any of our dockets, including the name of the individual sending the comment (or signing the comment for an association, business, labor union, etc.). You may review DOT’s complete Privacy Act Statement in the Federal Register published on April 11, 2000 (65 FR 19477–78).
The Agency established the current standard for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population. The diabetes rule provides that “A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control” (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency’s July 2000 study entitled “A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century.” The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 62441) Federal Register notice in conjunction with the November 8, 2005 (70 FR 67777) Federal Register notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These twenty-one applicants have had ITDM over a range of 1 to 34 years. These applicants report no severe hypoglycemic reactions resulting in loss of consciousness or seizure, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning symptoms, in the past 12 months and no recurrent (2 or more) severe hypoglycemic episode in the past 5 years. In each case, an endocrinologist verified that the driver has demonstrated a willingness to properly monitor and manage his/her diabetes mellitus, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision standard at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the July 21, 2010, Federal Register notice and they will not be repeated in this notice.

Discussion of Comment

FMCSA received one comment in this proceeding. The comment was considered and discussed below.

The Pennsylvania Department of Transportation stated that it had reviewed the driving record for Roy L. McKinney and was in favor of granting a Federal diabetes exemption to this individual.
