chairs the Sanctuary Advisory Council, a Research Committee
chair, the Sanctuary Advisory Council, an Education Committee
chair, the Sanctuary Advisory Council, and a
Conservation Committee chair by the
Conservation Representative, each
respectively dealing with matters
concerning research, education and
resource protection.

The council represents the
coordination link between the sanctuary
and the state and federal management
agencies, user groups, researchers,
educators, policy makers, and other
various groups that help to focus efforts
and attention on the humpback whale
and its habitat around the main
Hawaiian Islands.

The council functions in an advisory
capacity to the sanctuary management
and is instrumental in helping to
develop policies and program goals, and
to identify education, outreach,
research, long-term monitoring, resource
protection and revenue enhancement
priorities. The council works in concert
with the sanctuary management by
keeping him or her informed about
issues of concern throughout the
sanctuary, offering recommendations on
specific issues, and aiding in achieving
the goals of the sanctuary within the
context of marine programs and policies
of Hawai‘i.
