Approval and Promulgation of Implementation Plans Alabama: Volatile Organic Compounds

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Alabama State Implementation Plan (SIP) submitted by the Alabama Department of Environmental Management (ADEM) on March 3, 2010. The proposed revision would modify the definition of "volatile organic compounds" (VOCs) found at Alabama Administrative Code section 335-3-1-.02(gggg). Specifically, the revision would add two compounds (propylene carbonate and dimethyl carbonate) to the list of those excluded from the VOC definition on the basis that these compounds make a negligible contribution to tropospheric ozone formation. ADEM is seeking to update its SIP to be consistent with the federal rule finalized by EPA on January 21, 2009, which excludes these compounds from the regulatory definition of VOC. This action is being taken pursuant to Section 110 of the Clean Air Act.

SUPPLEMENTARY INFORMATION: For additional information see the direct final rule which is published in the Rules Section of this **Federal Register**. In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments in response to this notice, no further activity is contemplated. If EPA receives adverse comments, EPA will withdraw the direct final rule and will address all public comments received in a subsequent final rule based on this proposed rule. Migratory Bird Permits; Possession and Educational Use

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The U.S. Fish and Wildlife Service ("we" or "the Service") is proposing a permit regulation to authorize the possession and use of migratory birds in educational programs and exhibits. The proposed rule also would revise existing regulations authorizing public exhibition of eagles. In addition, it would remove the permit exemption for some public institutions for possession of live migratory birds and migratory bird specimens, and clarify that birds held under the exemption must be used for conservation education. For specimens such as feathers, parts, carcasses, nonviable eggs, and nests, the regulations would be updated and clarified to more accurately reflect the types of institutions that may hold specimens for public educational purposes. The regulations would allow exempt institutions to transfer migratory birds to individuals and entities authorized by permit to possess them. Sale and purchase by permittees and exempt institutions would be restricted to properly-marked, captive-bred birds. **DATES:** Submit written comments on or before December 20, 2010, to the address below.

Background

The Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 *et seq.*) prohibits possession of any bird protected by treaties between the United States and Canada, Mexico, Japan, and Russia unless the possession is authorized under regulation and/or by permit. Birds protected by the MBTA are referred to as "migratory birds." The Service regulates the use of migratory birds through regulations at parts 20 and 21 of title 50 of the Code of Federal Regulations (CFR). Unless exempt under regulations at 50 CFR 21.12, you must obtain a permit from the Service to possess a migratory bird for use in educational programs. Because there are currently no specific educational-use permit regulations, we authorize educational activities that involve migratory birds using Special Purpose permits issued under 50 CFR 21.27, which provides for permits for activities not specifically authorized by an existing permit category. In the absence of specific regulations addressing educational activities using migratory birds, the terms and requirements governing this activity are currently set forth in a list of standard conditions issued with each permit.
