III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrant in Table 2 of Unit II. has requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of a request by the registrant to voluntarily cancel their section 24(c) Special Local Needs (SLN) registrations of certain products containing the pesticide methyl parathion. The request would delete methyl parathion use in or on sweet potatoes, walnuts, and yams. The request would terminate the last methyl parathion products registered for use in the United States. If this request is granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been canceled only if the sale, distribution, or use is consistent with the terms as described in the final order.

II. Background on the Receipt of Requests To Cancel and/or Amend Registrations To Delete Uses

This notice announces receipt by EPA of a request from the registrant, United Phosphorus, Inc., to cancel certain methyl parathion product registrations. Methyl parathion is a restricted use organophosphate insecticide and acaricide. In a letter dated August 6, 2010, United Phosphorus, Inc., requested EPA to cancel certain pesticide product registrations identified in Table 1 of Unit III. Specifically, the registrant requested voluntary cancellation of all section 24(c) SLN registrations for methyl parathion. This cancellation request is directly related to the Memorandum of Agreement (MOA) signed on March 29, 2010, between Cheminova A/S, Cheminova, Inc., United Phosphorus, Inc., and the Agency. In this MOA, the registrants agreed to voluntarily cancel all methyl parathion product registrations including the parent product for these SLNs. The Agency previously issued a cancellation order for the parent products containing methyl parathion on July 27, 2010 (75 FR 43981). This action on the registrant's request will terminate the last methyl parathion products registered in the United States.

III. What action is the agency taking?

This notice announces receipt by EPA of a request from a registrant to cancel certain methyl parathion product

registrations. The affected products and the registrant making the request are identified in Tables 1 and 2 of this unit. Unless a request is withdrawn by the registrant or if the Agency determines

that there are substantive comments that warrant further review of this request, EPA intends to issue an order canceling the affected registrations.

IV. What is the agency’s authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The methyl parathion registrant has requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal

in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the request for voluntary cancellation is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

As specified in the MOA, registrants are prohibited from selling and distributing end-use products as of December 31, 2012. Persons other than the registrants are permitted to sell or distribute end-use products prior to August 31, 2013. All sales and distributions of end-use products shall be prohibited as of August 31, 2013, except for exports consistent with section 17 of FIFRA or for proper disposal.
