DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Performance and Handling Requirements for Rotorcraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request from the Office of Management and Budget (OMB) approval to renew an information collection. The FAA requires that certain performance information be provided in the Rotorcraft Flight Manual in order to show compliance to the regulatory requirements. The flight manual, by regulation, must be furnished with each aircraft.

DATES: Written comments should be submitted by November 22, 2010.

FOR FURTHER INFORMATION CONTACT: Carla Scott, (202) 267–0895, or by e-mail at: Carla.Scott@faa.gov.

SUPPLEMENTARY INFORMATION: OMB Control Number: 2120–0726. Title: Performance and Handling Requirements for Rotorcraft. Form Numbers: There are no FAA forms associated with this collection. Type of Review: Renewal of an information collection.

Background: In order to determine that a rotorcraft is a safe vehicle, an applicant for a type certificate must show compliance to specific minimum requirements. In order to show compliance, an applicant must substantiate the type design through analysis, testing, design limitations, and other acceptable means. This substantiation requires that certain performance information for safe operation of the rotorcraft be presented, in the form of tables, diagrams, or charts, in the flight manual. FAA engineers and designated engineers review the required data submittals to determine that the rotorcraft complies with the applicable minimum safety requirements for rotorcraft performance and that the rotorcraft has no unsafe features.

Respondents: Approximately 4 normal or transport category rotorcraft certification applicants.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 5.5 hours.

Estimated Total Annual Burden: 22 hours.

Send comments to the FAA at the following address: Ms. Carla Scott, Room 712, Federal Aviation Administration, Administration and Technology Enterprise Business Services Division, AES–200, 800 Independence Ave., SW., Washington, DC 20591.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Issued in Washington, DC, on September 17, 2010.

Carla Scott,

FAA Information Collection Clearance Officer, IT Enterprises Business Services Division, AES–200.

Pipeline and Hazardous Materials Safety Administration

Pipeline Safety: Information Collection Activity: Request for Comments

[Docket No. PHMSA–2010–0193]

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below is being forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. A Federal Register Notice with a 60-day period for commenting on the following information collection was published on July 14, 2010 (75 FR 40863). No comments were received.

DATES: Comments must be submitted on or before October 25, 2010.

ADDRESSES: Send comments regarding the burden estimate, including suggestions for reducing the burden, to OMB. Attention: Desk Officer for PHMSA, 725 17th Street, NW., Washington, DC 20503.

SUPPLEMENTARY INFORMATION: Title: Incorporation by Reference of Industry Standard on Leak Detection. OMB Control Number: 2137–0598.

Type of Request: Renewal of a currently-approved information collection.

Abstract: Under 49 CFR 195.444 of the Federal pipeline safety regulations, operators of single-phase hazardous liquid pipeline facilities that use computational pipeline monitoring (CPM) leak detection systems must comply with the standards set out in American Petroleum Institute (API) publication API 1130. API 1130 requires operators to record and retain certain information regarding the operation and testing of CPM systems. Compliance with API 1130, including its recordkeeping requirements, supports pipeline safety by ensuring the proper functioning of CPM leak detection systems.

Affected Public: Operators of hazardous liquid pipelines.

Estimated Number of Responses: 50.

Annual Estimated Burden Hours: 100.

Frequency of Collection: On occasion.

Comments are invited on the following: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information collected will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on September 17, 2010.

Linda Daugherty,

Deputy Associate Administrator for Policy and Programs.
