

Applicant: Steven Louis, Richland Center, WI; PRT-21605A

Applicant: Selmer Erickson, Park Rapids, MN; PRT-21574A

B. Endangered Marine Mammals and Marine Mammals

Applicant: U.S. Fish and Wildlife Service, Marine Mammals Management, Anchorage, AK; PRT-046081

The applicant requests amendment and renewal of the permit to take and harassment polar bears (*Ursus maritimus*) in the wild in Alaska and in waters around Alaska for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Indianapolis Zoological Society, Indianapolis, IN; PRT-19420A

The applicant requests a permit to take a Pacific walrus, (*Odobenus rosmarus divergens*), one male, found beached and abandoned as a newborn near Barrow, AK on July 4, 2003 for the purpose of public display. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Thomas A. Postel, Minneola, FL; PRT-19806A

The applicant requests a permit to photography Florida manatees (*Trichechus manatus*) underwater for commercial and educational purposes. This notification covers activities to be conducted by the applicant over a one-year period.

Concurrent with publishing this notice in the **Federal Register**, we are forwarding copies of the above applications to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

Dated: September 17, 2010

Brenda Tapia,

Program Analyst/Data Administrator, Branch of Permits, Division of Management Authority.

Notice of Intent; Request for Comments on Adoption of the National Park Service's Wetland and Creek Restoration Final Environmental Impact Statement/Environmental Impact Report, Big Lagoon, Muir Beach, Marin County, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), give notice of our intent to adopt the National Park Service's (NPS) existing final environmental impact statement/environmental impact report (EIS/EIR) for the Wetland and Creek Restoration at Big Lagoon, Muir Beach, California (project). We are considering approving a grant application by the California State Coastal Conservancy (CSCC) to assist with implementing restoration activities that have been identified and reviewed under the NPS' existing final EIS/EIR for the project. Based on our independent evaluation, adoption of the EIS/EIR would meet Department of Interior (DOI) and Service National Environmental Policy Act (NEPA) procedures and guidelines. In order to meet our NEPA requirements for approval of CSCC's grant application, we are recirculating the EIS/EIR for written public comment via this notice, in accordance with Service adoption requirements.

DATES: We must receive any written comments on or before October 20, 2010.

ADDRESSES: Send written comments to: Susan Detwiler, Chief, Wildlife and Sport Fish Restoration Program, Region 8—Pacific Southwest, U.S. Fish and Wildlife Service, 2800 Cottage Way, Room W-1729, Sacramento, CA 95825. The EIS/EIR and other documents mentioned below are available at <http://parkplanning.nps.gov/documentsList.cfm?projectID=12126>.

FOR FURTHER INFORMATION CONTACT: Justin Cutler, Grants Management Specialist, at the Sacramento address above; (916) 414-6457 (phone); e-mail: justin_cutler@fws.gov.

SUPPLEMENTARY INFORMATION: We are considering approving a grant application by CSCC to assist with implementing restoration activities that have been identified and reviewed

under the NPS' existing final EIS/EIR for the project. We are recirculating the EIS/EIR for written public comment via this notice, in order to meet our National Environmental Policy Act (NEPA; 40 CFR 1506.6) requirements for approval of CSCC's grant application. Based on our independent evaluation, adoption of the EIS/EIR would meet Department of Interior (DOI) and Service NEPA procedures and guidelines. We encourage interested persons to review the EIS/EIR and submit written comments.

Availability of Documents

The EIS/EIR and other documents mentioned below are available at <http://parkplanning.nps.gov/documentsList.cfm?projectID=12126>. To the extent practicable, copies of the EIS/EIR and other relevant documents will be made available for public review in alternative formats. Please reach the point of contact mentioned above to request documents in alternative formats.

Location

The 38-acre project site is located at the mouth of Redwood Creek, in Golden Gate National Recreation Area, Marin County, California, approximate Longitude: -122.57 and Latitude: 37.86. The project area encompasses the Lower Redwood Creek riparian area and wetlands extending from just downstream of Highway 1 to the beach.

Background

The NPS and the County of Marin (County) jointly prepared the following three documents to meet their Federal and State requirements:

- *December 2007, Wetland and Creek Restoration at Big Lagoon, Muir Beach, Marin County, Final Environmental Impact Statement/Environmental Impact Report, (EIS/EIR).*
- *March 2008, Amendment to the Final Environmental Impact Statement/Environmental Impact Report Wetland and Creek Restoration at Big Lagoon, Muir Beach (amendment).*
- *November 2008, Wetland and Creek Restoration at Big Lagoon, Muir Beach, Marin County Record of Decision, (ROD).*

The CSCC then partnered with the NPS and the County to assist in obtaining funding for restoration activities of the project. CSCC has submitted a grant application to the Service requesting funds under the National Coastal Wetland Conservation Grant Program for habitat restoration activities. The specific purpose of CSCC's application is to restore Lower Redwood Creek to a self-sustaining

functional ecosystem that will create habitat for populations of special status species, reduce flooding, and provide a compatible visitor experience. Other aspects of the project, such as public access and bridge construction, will be funded through other sources.

The EIS/EIR describes and evaluates four potential alternatives for improving and restoring the project area; No Action (Alternative 1), Creek Restoration (Alternative 2), Creek Restoration and Small Lagoon Restoration (Alternative 3), and Large Lagoon Restoration (Alternative 4), with Alternative 2 being the preferred alternative. Details of these alternatives and their environmental effects are described in the EIS/EIR.

The proposed Federal decision to approve and grant funds triggers the need for compliance with the NEPA. After an independent review, we find that the EIS/EIR and the ROD, adequately addresses appropriate alternatives and their environmental effects relative to the activities proposed to be funded by our grant. Based on an independent evaluation, the EIS/EIR would meet Department of Interior (DOI) and Service NEPA procedures and guidelines, and would be appropriate for adoption.

Public Review

We provide this notice under regulations implementing NEPA and invite the public to review the final EIS/EIR during the 30-day public comment period (see **DATES**). Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Conclusion

Based on the information summarized above, we intend to adopt the NPS's final EIS/EIR to fully comply with the regulations for implementing NEPA for the proposed Federal grant decision.

After the close of the comment period, we anticipate the preparation and issuance of our Record of Decision to occur in the fall of 2010.

Dated: August 31, 2010.

Alexandra Pitts,

Regional Director, Region 8.

Bureau of Land Management

[LLOROR957000-L63100000-BJ000: HAG10-0389]

Filing of Plats of Survey: Oregon/ Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed in the Bureau of Land Management Oregon/Washington State Office, Portland, Oregon, 30 days from the date of this publication.

Willamette Meridian

Oregon

- T. 4 S., R. 4 E., accepted July 6, 2010
- T. 22 S., R. 8 W., accepted August 16, 2010
- T. 19 S., R. 7 W., accepted August 18, 2010
- T. 29 S., R. 9 W., accepted August 18, 2010
- T. 14 S., R. 8 W., accepted August 25, 2010
- T. 34 S., R. 2 E., accepted August 27, 2010

ADDRESSES: A copy of the plats may be obtained from the Land Office at the Oregon/Washington State Office, Bureau of Land Management, 333 SW. 1st Avenue, Portland, Oregon 97204, upon required payment. A person or party who wishes to protest against a survey must file a notice that they wish to protest (at the above address) with the Oregon/Washington State Director, Bureau of Land Management, Portland, Oregon.

FOR FURTHER INFORMATION CONTACT: Kyle Hensley, (503) 808-6124, Branch of

Geographic Sciences, Bureau of Land Management, 333 SW. 1st Avenue, Portland, Oregon 97204.

Cathie Jensen,

Acting Chief, Branch of Land, Mineral, and Energy Resources.

Endangered Species; Marine Mammals; Issuance of Permits

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance of permits.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have issued the following permits to conduct certain activities with endangered species, marine mammals, or both. We issue these permits under the Endangered Species Act (ESA) and Marine Mammal Protection Act (MMPA).

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 558-7725; or e-mail DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT:

Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION: On the dates below, as authorized by the provisions of the ESA (16 U.S.C. 1531 et seq.), as amended, and/or the MMPA, as amended (16 U.S.C. 1361 et seq.), we issued requested permits subject to certain conditions set forth therein. For each permit for an endangered species, we found that (1) The application was filed in good faith, (2) The granted permit would not operate to the disadvantage of the endangered species, and (3) The granted permit would be consistent with the purposes and policy set forth in section 2 of the ESA.
