

employee benefit plans. In addition to being an important disclosure document for plan participants and beneficiaries, Form 5500 is a compliance and research tool for the EBSA, Pension Benefit Guaranty Corporation, and Internal Revenue Service. It is also a source of information for use by other Federal agencies, Congress, and the private sector in assessing employee benefit, tax, and economic trends and policies.

Form 5500 constitutes an information collection within the meaning of the PRA. Generally, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The DOL obtains OMB approval for this information collection under OMB Control Number 1210-0110. The current OMB approval is scheduled to expire on September 30, 2010, and the DOL is seeking OMB approval to continue this information collection. For additional information, see the related notice published in the **Federal Register** on June 23, 2010 (75 FR 35843).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference OMB Control Number 1210-0110. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of currently approved collection.

Title of Collection: Annual Return/Report of Employee Benefit Plan.

Form Numbers: Form 5500 and 5500-SF.

OMB Control Number: 1210-0110.

Affected Public: Business or other for-profit; not-for-profit institutions.

Total Estimated Number of Respondents: 780,000.

Total Estimated Number of Responses: 780,000.

Total Estimated Annual Burden Hours: 530,000.

Total Estimated Annual Costs Burden: \$178,000,000.

Dated: September 20, 2010.

Michel Smyth,

Departmental Clearance Officer.

DEPARTMENT OF LABOR

Employee Benefits Security Administration

Technical Correction of the Caption for Prohibited Transaction Exemption (PTE) 2010-27, Involving the Finishing Trades Institute of the Mid-Atlantic Region (the Plan)

AGENCY: Employee Benefits Security Administration, Department of Labor (the Department).

ACTION: Notice of technical correction.

In the September 16, 2010 issue of the **Federal Register**, the Department published PTE 2010-27 (at 75 FR 56568). PTE 2010-27 is an administrative exemption for the Plan from the prohibited transaction provisions of the Employee Retirement Income Security Act of 1974, as amended.

The operative language of PTE 2010-27, which begins at the top of the first column of page 56568 of the September 16, 2010 issue of the **Federal Register** after the boldface heading "Exemption," was not preceded by a caption that indicated the prohibited transaction exemption number. To correct the publication error for PTE 2010-27, the present caption before the boldface heading "Exemption" at the top of the column on page 56568 should be replaced with a new caption to read as follows:

The Finishing Trades Institute of the Mid-Atlantic Region (the Plan), Located in Philadelphia, Pennsylvania [Prohibited Transaction Exemption 2010-27; Exemption Application No. L-11609]

FOR FURTHER INFORMATION CONTACT: Mr. Brian Shiker of the Department at (202)

693-8552. (This is not a toll-free number.)

Signed at Washington, DC, this 21st day of September, 2010.

Ivan L. Strasfeld,

Director of Exemption Determinations, Employee Benefits Security Administration, U.S. Department of Labor.

BILLING CODE 4510-29-P

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0305]

Draft Regulatory Guide: Issuance, Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance and Availability of Draft Regulatory Guide, DG-1244, "Availability of Electric Power Sources."

FOR FURTHER INFORMATION CONTACT:

Satish Aggarwal, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 251-7627 or e-mail

Satish.Aggarwal@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft regulatory guide (DG), entitled, "Availability of Electric Power Sources" temporarily identified by its task number, DG-1244, which should be mentioned in all related correspondence. DG-1244 is proposed Revision 1 of Regulatory Guide 1.93, dated May 1974. This regulatory guide describes guidelines that the staff of the U.S. Nuclear Regulatory Commission (NRC) considers acceptable when the available electric power sources are less than the number of sources required by the limiting conditions for operation (LCOs) for a facility. This regulatory guide is applicable to single- and multiple-unit plants and is consistent with the improved Standard Technical Specifications (iSTS). The LCO-required

actions and specified completion times referred to in this regulatory guide are based on the completion times presented in Regulatory Guide 1.93, "Availability of Electric Power Sources," Revision 0, issued December 1974, which have been incorporated into the required actions in the iSTS.

II. Further Information

The NRC staff is soliciting comments on DG-1244. Comments may be accompanied by relevant information or supporting data and should mention DG-1244 in the subject line. Comments submitted in writing or in electronic form will be made available to the public in their entirety through the NRC's Agencywide Documents Access and Management System (ADAMS).

Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit comments by any of the following methods:

1. *Mail comments to:* Rules, Announcements, and Directives Branch, Mail Stop: TWB-05-B01M, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

2. *Federal e-Rulemaking Portal:* Go to <http://www.regulations.gov> and search for documents filed under Docket ID [NRC-2010-0305]. Address questions about NRC dockets to Carol Gallagher, 301-492-3668; e-mail Carol.Gallagher@nrc.gov.

3. *Fax comments to:* Rules, Announcements, and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission at (301) 492-3446.

Comments would be most helpful if received by November 26, 2010. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

Requests for technical information about DG-1244 may be directed to the NRC contact, Satish Aggarwal at (301) 251-7627 or e-mail Satish.Aggarwal@nrc.gov.

Electronic copies of DG-1244 are available through the NRC's public Web site under Draft Regulatory Guides in the "Regulatory Guides" collection of the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/doc-collections/>. Electronic copies are also available in ADAMS (<http://www.nrc.gov/reading-rm/adams.html>), under Accession No. ML100840581.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR) located at 11555 Rockville Pike, Rockville, Maryland. The PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4205, by fax at (301) 415-3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

Dated at Rockville, Maryland, this 17th day of September, 2010.

For the Nuclear Regulatory Commission.

Harriet Karagiannis,

Acting Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-277 AND 50-278; NRC-2010-0303]

Exelon Generation Company, LLC; Peach Bottom Atomic Power Station Unit Nos. 2 and 3; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50, Appendix R, Section III.G, "Fire Protection of Safe Shutdown Capability," for the use of operator manual actions (OMAs) in lieu of the requirements specified in Appendix R, Section III.G.2, for Renewed Facility Operating License Nos. DPR-44 and DPR-56, issued to Exelon Generation Company, LLC (the licensee), for operation of Peach Bottom Atomic Power Station (PBAPS), Unit Nos. 2 and 3, located in York and Lancaster Counties, Pennsylvania. Therefore, as required by 10 CFR 51.21, the NRC

performed an environmental assessment. Based on the results of the environmental assessment, the NRC is issuing a finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would grant an exemption to 10 CFR Part 50, Appendix R, Section III.G.2 (III.G.2) for the use of OMAs contained in the licensee's Fire Protection Program (FPP) in lieu of certain technical requirements contained in III.G.2. The licensee's FPP requires that the identified operator manual actions be performed outside of the control room to achieve shutdown of the reactor following fires in certain fire areas in the plant. The licensee states that the documentation provided in the submitted exemption request for PBAPS, Unit Nos. 2 and 3, demonstrates the feasibility and reliability of the identified OMAs.

The proposed action is in accordance with the licensee's application dated March 6, 2009, as supplemented by letter dated February 12, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML090680141 and ML100470774, respectively).

The Need for the Proposed Action

The proposed exemption requests the use of OMAs in lieu of meeting the circuit separation and protection requirements contained in III.G.2 for 11 fire areas described in the PBAPS FPP. The OMAs consist of a sequence of tasks that are initiated upon confirmation of a fire in the associated fire area. The proposed exemption is necessary because the crediting of OMAs to achieve and maintain hot shutdown of the reactor is not addressed in 10 CFR Part 50, Appendix R, Section III.G.2, and an exemption is therefore required in accordance with 10 CFR 50.12.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation for the proposed action and concludes that the OMAs addressed in the application are feasible and can be reliably performed. Further, the NRC concludes that the licensee has demonstrated sufficient defense-in-depth such that identified preventative and protective measures in addition to the specified OMAs demonstrate the licensee's ability to preserve or maintain safe shutdown capability in the event of a fire in the analyzed fire areas.

The details of the NRC staff's safety evaluation will be provided in the
