

ACTION: Notice of a revision of a currently approved information collection (1028-0091).

SUMMARY: We (the U.S. Geological Survey) have sent an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. The ICR, which is summarized below, describes the nature of the collection and the estimated burden on the public.

DATES: You must submit comments on or before *December 28, 2010*.

ADDRESSES: Please send your comments and suggestions on this ICR to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or *OIRA_DOCKET@OMB.eop.gov* (e-mail). Please also send a copy of your comments on the ICR to Phadrea Ponds, Information Collection Clearance Officer, U.S. Geological Survey, 2150-C Centre Avenue, Fort Collins, CO 80526 (mail); ponds@usgs.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, please contact USGS, Earlene Swann by mail at U.S. Geological Survey, 2150-C Center Avenue, Fort Collins, CO 80525 or by telephone at (970) 226-9346.

SUPPLEMENTARY INFORMATION:

I. Abstract

This study was approved by OMB (on September 30, 2009). We are requesting a revision of this collection. The U.S. Geological Survey's (USGS) Land Remote Sensing (LRS) Program has been briefed on the results associated with this ICR and has requested additional information to be collected concerning the users of Landsat Imagery. After careful consideration and review of the results, the LRS Program determined that they would like to know more about users of Landsat imagery. Specifically, in order to meet legal and programmatic responsibilities to effectively manage the Landsat system, the LRS has requested additional information about the uses and the values of a defined population of users who obtain imagery from the Earth Resources Observation and Science Center (EROS). EROS is responsible for collecting, processing, archiving, and distributing Landsat imagery. Between 2008 and 2009, there was a five-fold increase in users when imagery became available at no cost beginning in late 2008. The LRS Program is very interested in knowing more about this population of users. The initial information collection provided information about a diverse contingent of Landsat and other moderate-resolution imagery users, but was not

generalizable to the entire population of users, and did not include new users who may have begun using Landsat after it became available at no cost. This collection has been revised to provide USGS with information about a population of users for which they currently have no existing data. Additionally, this information could help guide efforts to provide suitable replacement imagery in the event of a break in Landsat continuity by providing a better understanding of likely user responses to this scenario. This information collection will be conducted by scientists and staff in the Policy Analysis and Science Assistance Branch (PASA) of the USGS. The information collection will be conducted online.

II. Data

OMB Control Number: 1028-0091.
Title: Users, Uses, and Value of Landsat Satellite Imagery.
Type of Request: This is a revision of a currently approved collection.
Respondent Obligation: Voluntary.
Frequency of Collection: One-time.
Estimated Annual Number of and Description of Respondents: 14,773. State and Local Government, private individuals, state and local land management officials, scientists, and geographic researchers.

	Annual number of responses	Estimated completion time per respondent	Estimated annual burden
Survey	13,051	30 minutes	6,526
Non-respondents	1,722	3 minutes	87
Total	14,773	6,613

Estimated Annual Reporting and Recordkeeping "Non-Hour Cost": There are no "non-hour cost" burdens associated with this collection of information.

III. Request for Comments

We are inviting comments concerning this ICR on: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of

public record. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: September 22, 2010.

Abstract: The Endangered Species Act (ESA) (16 U.S.C. 1531 et seq.) makes it unlawful to import or export fish, wildlife, or plants without obtaining prior permission as deemed necessary for enforcing the ESA or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)).

This information collection includes the following permit/license application forms:

(1) FWS Form 3-200-2 (Designated Port Exception Permit). Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12 unless you qualify for an exception. These exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

- (a) When the wildlife or wildlife products will be used as scientific specimens.
- (b) To minimize deterioration or loss.
- (c) To relieve economic hardship.

To request an import or export of wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3-200-2. Designated port exception permits are valid for 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

(2) FWS Form 3-200-3 (Import/Export License). It is unlawful to import or export wildlife or wildlife products for

commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants must complete FWS Form 3-200-3 to request this license. We use the information that we collect on the application as an enforcement tool and management aid to: (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Permittees and licensees must maintain records that accurately describe each importation or exportation of wildlife or wildlife products made under the license, and any additional sale or transfer of the wildlife or wildlife products. In addition, licensees must make these records and the corresponding inventory of wildlife or wildlife products available for our inspection at reasonable times, subject to applicable limitations of law. We believe the burden associated with these recordkeeping requirements is minimal because the records already exist. Importers and exporters must complete FWS Form 3-177 (Declaration for Importation or Exportation of Fish or Wildlife) for all imports or exports of wildlife or wildlife products. This form provides an accurate description of the imports and exports. OMB has approved the information collection for FWS Form 3-177 and assigned OMB Control

Number 1018-0012. Normal business practices should produce records (e.g., invoices or bills of sale) needed to document additional sales or transfers of the wildlife or wildlife products.

Comments: On February 25, 2010, we published in the **Federal Register** (75 FR 8732) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on April 26, 2010. We received two comments. One comment supported the reporting and recordkeeping requirements and stated that they were essential to meet the requirements of the ESA. The other comment stated that the permitting system is flawed, but did not address information requirements or the cost and hour burden estimates. We did not make any changes to this collection as a result of these comments.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your

address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
