BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Navy

Record of Decision for the Guam and Commonwealth of Northern Mariana Islands Military Relocation: Relocating Marines from Okinawa, Visiting Aircraft Carrier Berthing, and Air and Missile Defense Task Force

Lead Agency: Department of the Navy, DoD.

Cooperating Agency: Department of the Army, DoD.

ACTION: Notice of Record of Decision.

SUMMARY: The Department of the Navy (DoN) and the Department of the Army (Army), after carefully weighing the environmental consequences of the proposed action, as well as considering operational and training requirements, strategic requirements, obligations under treaties and other international agreements, and cost, announce their decision to proceed with Guam and Commonwealth of Northern Mariana Islands (CNMI) Military Relocation.

As a result of redefining the United States (U.S.) defense posture in the Pacific region and the U.S. alliance with Japan, a portion of U.S. Marine Corps (USMC) forces currently located in Okinawa, Japan will be relocated to

Guam. This relocation of USMC forces will meet international agreement and treaty requirements and fulfill U.S. national security policy requirements to provide mutual defense, deter aggression, and dissuade coercion in the Western Pacific Region in response to the evolving security environment in the Pacific region, as identified through the Integrated Global Presence and Basing Strategy and the Quadrennial Defense Review (QDR). The redefining of the U.S. defense posture in the Pacific also calls for greater availability of aircraft carrier strike groups in the Pacific to support engagement, presence, and deterrence. Finally, in support of the proposed military relocation, the stationing of an Air and Missile Defense Task Force (AMDTF) is also being considered. A significant number of countries have ballistic missile capabilities which can deliver conventional, nuclear, biological, and chemical weapons. Other countries are working to establish these capabilities and missile systems. The effective strike range of defensive ballistic missile systems dictates that they must be located in the proximity of the protected assets. The need for the proposed AMDTF is to protect the territory of Guam, its citizens, U.S. and allied forces on Guam from the threat of harm from ballistic missile attacks from other countries and enemies of the U.S.

Implementing the military relocation analyzed in the Environmental Impact Statement (EIS) will be a multi-agency, multi-year effort undertaken by the DoN, Army, Department of Transportation's Federal Highway Administration (FHWA), Guam utilities, Guam agencies, and various private entities. Implementation includes several components:

(1) *Marine Corps:* (a) Development and construction of facilities and infrastructure to support approximately 8,600 Marines and their 9,000 dependents being relocated from Okinawa to Guam. (b) Development and construction of facilities and infrastructure to support training and operations on Guam and Tinian (located in the CNMI).

DoN has elected to defer selection of a specific site for the construction and operation of a live fire training range complex in the Route 15 area in Guam pending completion of the Section 106 consultation process under the National Historic Preservation Act (NHPA). Likewise, a selection regarding implementation of a roadway improvement project calling for a realignment of Route 15 is hereby deferred pending selection of a specific site for the construction.
