This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have

This Notice also lists the following information:

Title of Proposal: Mortgage Record Change.

OMB Control Number, if applicable: 2502-0422.

Description of the need for the information and proposed use:

Servicing of insured mortgages must be performed by a mortgagee that is approved by HUD to service insured mortgages. The Mortgage Record Change information is used by FHA-approved mortgagees to comply with HUD requirements for reporting the sale of a mortgage between investors and/or the transfer of the mortgage servicing responsibility, as appropriate. The information is collected electronically through Electronic Data Interchange and via FHA Connection. The information required is used to update HUD's Single Family Insurance System and other related systems. Current data is necessary to establish mortgage premium liability, forward annual premium mortgage data to the appropriate mortgagee/servicer, and maintain premium receivables and program data regarding investors/servicer activity. Without the required data, the premium collection/monitoring function would be severely impeded and program data would be unreliable. This information is essential because HUD does case level accounting in recording premium payments by mortgagees.

Agency form numbers, if applicable: Not applicable. Form HUD-92080 is now obsolete. There are no copies of blank forms available to the public. This information is collected 100% electronically.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The number of burden hours is 250,000. The number of respondents is 6,500, the number of responses is 2,500,000, the frequency of response is on occasion, and the burden hour per response is 0.1.

Status of the proposed information collection: Extension of a currently approved collection.
