

Endangered Species Act (ESA)

No ESA-listed species under NMFS' jurisdiction are expected to be affected by these activities. Therefore, NMFS has determined that a section 7 consultation for issuance of the proposed IHA under the ESA is not required.

National Environmental Policy Act (NEPA)

Pursuant to NEPA, the general impacts associated with the design and construction phases of the proposed action are described in the Community-Based Restoration Program (CRP) Programmatic Environmental Assessment (PEA) and the Supplemental Programmatic Environmental Assessment (SPEA), which were prepared by the NOAA Restoration Center, Southwest Region. The NOAA Restoration Center, Southwest Region, will complete a Targeted Supplemental Environmental Assessment (TSEA) to include all project-specific impacts not described in the CRP PEA/SPEA. If it is adequate, NMFS will consider adopting it. If not, NMFS would prepare an independent EA. A copy of NOAA's EA can be obtained by going to the NMFS Web site listed in the beginning of this document. This analysis will be completed prior to the issuance or denial of this proposed IHA. The public is invited to provide comments on the potential effects to marine mammals disclosed in this notice as well as NOAA's EA. NMFS will consider public comments as it completes its NEPA analysis and decides whether or not to prepare a Finding of No Significant Impact should NMFS decide to issue a final IHA.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to authorize the take of marine mammals incidental to the Parsons Slough project, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: September 29, 2010.

Helen M. Golde,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

The Honorable Nancy Pelosi
Speaker
U.S. House of Representatives
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 10-47, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Iraq for defense articles and services estimated to cost \$57 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

A handwritten signature in black ink, reading "Richard A. Genaille, Jr." in a cursive script.

Transmittal No. 10-47

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended

- (i) Prospective Purchaser: Iraq
- (ii) Total Estimated Value:

Major Defense Equipment*	\$ 0 million
Other	\$ <u>57 million</u>
TOTAL	\$ 57 million
- (iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: Contractor technical support for the development and modification of Mobile Communications Centers that includes the design, supply and installation of all communication equipment. Also included are warranties, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support.
- (iv) Military Department: Army (UDD)
- (v) Prior Related Cases, if any: None
- (vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None
- (vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: None
- (viii) Date Report Delivered to Congress: 24 September 2010

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONIraq – Contractor Technical Support for the Mobile Communications Center

The Government of Iraq has requested a possible sale of contractor technical support for the development and modification of Mobile Communications Centers that includes the design, supply and installation of all communication equipment. Also included are warranties, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$57 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the communication equipment will advance Iraq's efforts to develop a strong national policy authority and military. The communications equipment will provide Iraq with spares, training, and technical support for its existing communications network. This will enable the Government of Iraq to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to bring stability to Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be ITT Corporation, Defense Electronics Services in McLean, Virginia, and the Harris Corporation in White Plains, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple U.S. contractor field service representatives to be stationed in country for a period of approximately three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 10–48

Transmittal No. 10-51

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended

- (i) Prospective Purchaser: Kuwait
- (ii) Total Estimated Value:

Major Defense Equipment*	\$383 million
Other	<u>\$310 million</u>
TOTAL	\$693 million
- (iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: one Boeing C-17 GLOBEMASTER III aircraft, four Turbofan F117-PW-100 engines installed on the aircraft, one spare Turbofan F117-PW-100 engine, one AN/ALE-47 Counter-Measures Dispensing System (CMDs), one AN/AAR-47 Missile Warning System, aircraft ferry services, refueling support, precision navigation equipment, spare and repairs parts, support, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support.
- (iv) Military Department: Air Force (SAA)
- (v) Prior Related Cases, if any: None
- (vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None
- (vii) Sensitivity of Technology Contained in the Defense Articles or Defense Services Proposed to be Sold: See Annex attached
- (viii) Date Report Delivered to Congress: 24 September 2010

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONKuwait – C-17 GLOBEMASTER III Aircraft and Related Support

The Government of Kuwait has requested a possible sale of one Boeing C-17 GLOBEMASTER III aircraft, four Turbofan F117-PW-100 engines installed on the aircraft, one spare Turbofan F117-PW-100 engine, one AN/ALE-47 Counter-Measures Dispensing System (CMDS), one AN/AAR-47 Missile Warning System, aircraft ferry services, refueling support, precision navigation equipment, spare and repairs parts, support, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$693 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

This proposed sale will provide a long-range, strategic airlift capability to the Kuwaiti Air Force (KAF) allowing them to meet operational requirements. The KAF is tasked with relief support, humanitarian disaster and peacekeeping missions, as well as transporting dignitaries and cultural assets to various regional and international destinations. This proposed sale will further enhance its interoperability with the U.S. Air Force airlift system in the region. Kuwait will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This prime contractor will be The Boeing Company in Chicago, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government or contractor representatives to Kuwait. The number required will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 10-51

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The Boeing C-17 GLOBEMASTER III military airlift aircraft is the newest, most flexible cargo aircraft to enter the U. S. Air Force fleet. The C-17 is capable of rapid strategic delivery of up to 170,900 pounds of personnel and equipment to main operating bases or to forward operating bases. The aircraft is also capable of short field landings with a full cargo load. Finally, the aircraft can perform tactical airlift and airdrop missions and can also transport litters and ambulatory patients during aeromedical evacuation when required. A fully integrated electronic cockpit and advanced cargo systems allow a crew of three: the pilot, copilot and loadmaster to operate the aircraft on any type of mission.

2. The AN/ALE-47 Counter-Measures Dispensing System (CMDS) is an integrated, threat-adaptive, software-programmable dispensing system capable of dispensing chaff, flares and active radio frequency expendables. The threats countered by the CMDS include radar-directed anti-aircraft artillery (AAA), radar command-guided missiles, radar homing guided missiles, and infrared (IR) guided missiles. The system is internally mounted and may be operated as a stand-alone system or may be integrated with other on-board electronic warfare and avionics systems. The AN/ALE-47 uses threat data received over the aircraft interfaces to assess the threat situation and to determine a response. Expendable routines tailored to the immediate aircraft and threat environment may be dispensed using one of four operational modes. The hardware, technical data, and documentation to be provided are Unclassified.

3. The AN/AAR-47 Missile Warning System is a small, lightweight, passive, electro-optic, threat warning device used to detect surface-to-air missiles fired at helicopters and low-flying fixed-wing aircraft and automatically provide countermeasures, as well as audio and visual-sector warning messages to the aircrew. The basic system consists of multiple Optical Sensor Converter (OSC) units, a Computer Processor (CP) and a Control Indicator (CI). The set of OSC units, which normally consist of four, is mounted on the aircraft exterior to provide omnidirectional protection. The OSC detects the rocket plume of missiles and sends appropriate signals to the CP for processing. The CP analyzes the data from each OSC and automatically deploys the appropriate countermeasures. The CP also contains comprehensive BIT circuitry. The CI displays the incoming direction of the threat, so that the pilot can take appropriate action. The hardware, technical data, and documentation to be provided are Unclassified.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
