We are issuing this AD to detect cracks in the front combustion liner, which could result in hot section distress, uncontained multiple blade release and possible damage to the aircraft.

**Actions and Compliance**

(e) Unless already done, do the following actions.

**Inspection**

(f) Perform a borescope inspection as specified in section 3. Accomplishment instructions, subsection A. Borescope Inspection of Rolls-Royce RB211 Alert Service Bulletin (ASB) RB.211–72–AF458 Revision 4, dated March 9, 2009, before the limits specified below:

**Initial Inspection**

(1) If the engine has a combustion liner installed with:

(i) A LIFE on the effective date of this AD, that is equal to or greater than the initial inspection threshold specified in column (b) in Table 1 of this AD, or

(ii) A LIFE on the effective date of this AD, that is not known, carry out the action specified in paragraph (f) of this AD within 250 cycles after the effective date of this AD.

**Repeat Inspection**

(2) Thereafter, repeat the borescope inspection at intervals not to exceed the cycles specified in column (d) of Table 1 or this AD.

**FAA AD Differences**

(h) This AD differs from the Mandatory Continuing Airworthiness Information (MCAI) and/or service information in that the MCAI applies to the RB211 Trent 772C–60 engine, which isn’t type certificated in the United States.

**Other FAA AD Provisions**

(i) **Alternative Methods of Compliance (AMOCs):** The Manager, Engine Certification Office, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19.

SUPPLEMENTARY INFORMATION:

I. Background on the Montana Program
Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Montana program on April 1, 1980. You can find background information on the Montana program, including the Secretary’s findings, the disposition of comments, and conditions of approval of the Montana program in the April 1, 1980, Federal Register (45 FR 21560). You can also find later actions concerning Montana’s program and program amendments at 30 CFR 926.15, 926.16, and 926.30.
