Milk for Manufacturing Purposes and Its Production and Processing; Requirements Recommended for Adoption by State Regulatory Agencies

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; request for comments.

SUMMARY: This document proposes to amend the recommended manufacturing milk requirements (Recommended Requirements) by raising the maximum allowable somatic cell count in producer herd goat milk from 1,000,000 cells per milliliter to 1,500,000 cells per milliliter. This proposal was initiated at the request of the National Association of Dairy Regulatory Officials (NADRO) and was developed in cooperation with NADRO, dairy trade associations, and producer groups. This will ensure that goat milk can continue to be shipped and recognizes that goats have a need for different regulatory limits for somatic cells than cows. To accommodate changes that occur in the dairy industry, NADRO and various State officials request USDA to update the Recommended Requirements periodically.

During its July 2009 annual meeting, NADRO passed a resolution requesting USDA to raise the maximum allowable somatic cell count for producer herd goat milk from 1,000,000 cells per milliliter to 1,500,000 cells per milliliter to provide consistency with the current requirements in place for Grade A producer herd goat milk. Due to inherent difference between cows and goats, goat milk with a somatic cell count of 1.5 million cells per milliliter can be produced from a healthy, non-mastitic udder and therefore, is quality milk. The need for a separate standard for goat milk was recognized by the National Conference on Interstate Milk Shipments (NCIMS) and was raised to 1.5 million cells per milliliter at their 2009 conference. This proposed change will align the Recommended Requirements with the Grade A requirements for goat milk. AMS reviewed this resolution and developed a draft proposal that identified the changes associated with this request. This draft was provided to State regulatory officials and dairy trade association representatives for informal discussion prior to publication in the Federal Register. AMS is now soliciting comments on the proposed notice to the Recommended Requirements.

The requirements of Executive Order 13132, Federalism, were considered in developing this notice, and it has been determined that this action does not have substantial effects on the States (the relationship between the National Government and the States or on the distribution of power and responsibilities among the various levels of government). The adoption of the Recommended Requirements by State regulatory agencies is voluntary. States maintain the responsibility to establish dairy regulations and continue to have the option to establish regulations that are different from the Recommended Requirements. A State may choose to have requirements less restrictive or more stringent than the Recommended Requirements. Their decision to have different requirements would not affect the ability of milk producers to market milk or of processing plants to produce dairy products in their State. AMS is publishing this notice with a 60-day comment period to provide a sufficient time for interested persons to comment on the changes.

DATES: Submit written or electronic comments on or before December 6, 2010.

ADDRESSES: You may use any of the following methods to file comments on this action:

By Mail: Reginald Pasteur, Marketing Specialist, Standardization Branch, Dairy Programs, STOP 0230 (Room 2746–South Building), Agricultural Marketing Service, U.S. Department of Agriculture (USDA), 1400 Independence Avenue, SW., Washington, DC 20250–0230.

By Fax: (202) 720–2643.

By e-mail: Via the electronic process available at the Federal eRulemaking portal at http://www.regulations.gov. Comments should reference the docket number and the date and page number of this issue of the Federal Register. Any comments received may be inspected at the above address during regular business hours (8 a.m.–4:30 p.m.) or may be accessed via the Internet at http://www.regulations.gov.

The current Recommended Requirements are available either from the above mailing address or by accessing the following internet address: http://www.ams.usda.gov/dairy/manufmlk.pdf. The proposed changes to the Recommended Requirements are also available from the above mailing address or by accessing the following internet address: http://www.ams.usda.gov/dairy/dockets.htm.

FOR FURTHER INFORMATION CONTACT:

Reginald Pasteur, Marketing Specialist, Standardization Branch, Dairy Programs, AMS, USDA, telephone (202) 720–7473 or e-mail Reginald.pasteur@ams.usda.gov.

SUPPLEMENTARY INFORMATION: Under the authority of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627), the U.S. Department of Agriculture maintains a set of model regulations relating to quality and sanitation requirements for the production and processing of manufacturing grade milk. These Recommended Requirements are developed by AMS and recommended for adoption and enforcement by the various States that regulate manufacturing grade milk. The purpose of the model requirements is to promote uniformity in State dairy laws and regulations relating to manufacturing grade milk.

In consultation with representatives from NADRO, State regulatory agencies, Food and Drug Administration (FDA), and dairy industry trade associations, USDA prepared the Recommended Requirements to promote uniformity in State dairy laws and regulations for manufacturing grade milk. To promote uniformity in State dairy laws and regulations for manufacturing grade milk. To
Based on information provided above, this notice seeks public comment on revising the somatic cell count for goat milk from 1,000,000 cells per milliliter to 1,500,000 cells per milliliter in sections C7 (d) and C11 (e), (o)(2), and (f) of the Recommended Requirements.

David R. Shipman,
Acting Administrator, Agricultural Marketing Service.

DEPARTMENT OF COMMERCE
Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).
Title: Socioeconomics of Users and Non Users of Grays Reef National Marine Sanctuary.
OMB Control Number: None.
Form Number(s): NA.
Type of Request: Regular submission (request for review of a new information collection).
Number of Respondents: 248.
Average Hours per Response: Sanctuary users’ and non-users’ surveys, one hour; business operations’ surveys, 3 hours.
Burden Hours: 276.
Needs and Uses: The National Marine Sanctuaries Act (16 U.S.C. 1431, et seq.) (NMSA) authorizes the use of research and monitoring within National Marine Sanctuaries (NMS). In 1981, the Grays Reef National Marine Sanctuary (GRNMS) was added to the system of NMS.
The purpose of this information collection is to obtain socioeconomic information on this sanctuary. The GRNMS has recently revised its management plan, and two issues emerged as top priorities leading to efforts to change management strategies and regulations: (1) Prohibition of spear fishing and (2) research only area. Information was obtained to assess the potential socioeconomic impacts of the prohibition of spear fishing and research only area alternatives. The preferred alternatives have been chosen and the regulatory regulations to implement the regulations is underway. The study involves surveys of recreational user groups, which are potentially impacted by the regulations, to assess their knowledge, attitudes and perceptions of the management strategies and regulations and how they were actually impacted post implementation, and to guide education and outreach efforts.
Information will be collected on spatial use for all user groups to assess the extent of potential displacement of activity from the research only area alternative.
For business operations, costs and earnings will be obtained to assess the impact of regulatory alternatives on business profits. Socioeconomic/demographic information on owners/operators and number of employees and family members of owners/operators will also be obtained.
For members of households that participate in recreational fishing or recreational SCUBA diving, information will be collected on socioeconomic/demographic profiles, spending associated with their activity, economic user value associated with their activity, and knowledge, attitudes and perceptions about GRNMS management strategies and regulations.
Affected Public: Business or other for-profit organizations; individuals or households.
Frequency: One time.
Respondent’s Obligation: Voluntary.
OMB Desk Officer: OIRA_Submission@omb.eop.gov.
Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482–0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).
Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov.
Gwennlar Banks,
Management Analyst, Office of the Chief Information Officer.

National Telecommunications and Information Administration

[Docket No. 100910448–0448–01]
RIN 0660–XA19
Inquiry on Copyright Policy, Creativity, and Innovation in the Internet Economy

AGENCY: Office of the Secretary, U.S. Department of Commerce; Patent and Trademark Office, U.S. Department of Commerce; National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of Inquiry.

SUMMARY: The Department of Commerce’s Internet Policy Task Force is conducting a comprehensive review of the relationship between the availability and protection of online copyrighted works and innovation in the Internet economy. The Department, the United States Patent and Trademark Office (USPTO), and the National Telecommunications and Information Administration (NTIA) seek public comment from all interested stakeholders, including rights holders, Internet service providers, and consumers on the challenges of protecting copyrighted works online and the relationship between copyright law and innovation in the Internet economy. After analyzing the comments submitted in response to this Notice, the Internet Policy Task Force intends to issue a report that will contribute to the Administration’s domestic policy and international engagement in the area of online copyright protection and innovation.

DATES: Comments are due on or before November 19, 2010.

ADDRESSES: Interested parties are encouraged to file comments electronically by e-mail to copyright-noi-2010@ntia.doc.gov. Submissions should be in one of the following formats: HTML, ASCII, Word, rtf, or pdf. Paper comments can be sent to: Office of Policy Analysis and Development, NTIA, U.S. Department of Commerce, Room 4725, 1401 Constitution Avenue, NW., Washington, DC 20230. Please note that all material sent via the U.S. Postal Service (including “Overnight” or “Express Mail”) is subject to delivery delays of up to two weeks due to mail
