

alternatives, which included no action and two configurations to defer areas from leasing along the coast adjacent to the proposed sale area. The Final EIS evaluated the potential effects of exploration seismic surveying and drilling; oil development, production, and transportation; and accidental crude oil spills.

3. *Scoping*: In accordance with 40 CFR 1502.9(c)(4), there will be no scoping conducted for this SEIS. The scope of the Final EIS for Sale 193 and the remand by the United States District Court for the District of Alaska establish the scope for this SEIS. A Notice of Availability of the draft Supplemental EIS for public review and comment will be announced: (1) In the **Federal Register** by BOEMRE and the Environmental Protection Agency; (2) on the BOEMRE, Alaska OCS Region, homepage; and (3) in the local media. Public hearings will be held following release of the Draft Supplemental EIS. Dates and locations will be determined and published at a later date.

4. *Cooperating Agencies*: The DOI policy is to invite other Federal agencies, and State, Tribal, and local governments to consider becoming cooperating agencies in the preparation of an EIS. Council on Environmental Quality (CEQ) regulations state that qualified agencies and governments are those with "jurisdiction by law or special expertise." Potential cooperating agencies should consider their authority and capacity to assume the responsibilities of a cooperating agency. Cooperating agency status neither enlarges nor diminishes the final decisionmaking authority of any agency involved in the NEPA process. The BOEMRE invites qualified government entities to inquire about cooperating agency status for this Supplemental EIS. Upon request, the BOEMRE will provide qualified cooperating agencies with a written summary of ground rules for cooperating agencies, including time schedules and critical action dates, milestones, responsibilities, scope and detail of cooperating agencies' contributions, and handling of pre-decisional information. The BOEMRE anticipates this summary will form the basis for a Memorandum of Understanding between the BOEMRE and each cooperating agency. You should also consider the CEQ's "Factors for Determining Cooperating Agency Status." This document is available on the CEQ Web site at: <http://ceq.hss.doe.gov/nepa/regs/cooperating/cooperatingagencymemofactors.html>. Even if your organization is not a cooperating agency, you will have an opportunity to provide information and

comments to BOEMRE during the comment phase of the NEPA/EIS process. Additional information may be found at the following Web site: <http://alaska.boemre.gov>.

## DEPARTMENT OF THE INTERIOR

### Bureau of Ocean Energy Management, Regulation and Enforcement

#### Outer Continental Shelf Official Protraction Diagrams

**AGENCY:** Bureau of Ocean Energy Management, Regulation and Enforcement, Interior.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that effective with this publication, the following NAD 83-based Outer Continental Shelf Official Protraction Diagrams (OPDs) located within Atlantic Ocean areas, with revision dates as indicated, are now available. The BOEMRE in accordance with its authority and responsibility under Title 43, Code of Federal Regulations, is updating the basic record used for the description of renewable energy, mineral, and oil and gas lease sales in the geographic areas they represent. These revised OPDs reflect updated locations for the Submerged Lands Act (3 nautical mile), Limit of "8(g) Zone," National Marine Sanctuary, and/or Planning Area boundaries. The revised OPDs are for informational purposes only.

#### Outer Continental Shelf Official Protraction Diagrams in the North Atlantic, Mid Atlantic, South Atlantic, and Straits of Florida Planning Areas
